## Annex 1 – Scope of work

**Overall goal:** To improve the health and wellbeing of vulnerable populations through increasing access to integrated, qualitative, and comprehensive Drug Use and Drug Use Disorders Treatment services.

This project will promote evidence-based and human rights oriented (voluntary) drug treatment and rehabilitation services recommended by national guidelines/protocol on drug treatment and rehabilitation and UNODC/WHO international standards as well as regional and global best practices.

*Output 1: Strengthened capacities of pilot Drug Addiction Treatment Centers (DATCs) for an improved and inclusive package of drug abuse rehabilitation services*

> Full operational support to one pilot DTC (150 beds DTC in Herat province)

All patients admitted to the pilot DTC will go through treatment phases (evaluation, treatment, and rehabilitation) allowing efficient detoxification process using relevant and evidence-based range of intervention.

| ***Indicators*** | ***Target*** |
|---|---|
| Number of patients who completed the rehabilitation treatment at the supported Drug Addiction Treatment Centers (DATCs), disaggregated by pilot/priority DATCs, age and sex | 600[1] |
| Number of gender-sensitive protection mechanisms in place at the pilot DATCs | 1 |
| Number of beds operational on regular basis (throughout the intervention period) for treatment and rehabilitation of drug use disorder at the supported pilot DATC | 150 |

*Output 2: Strengthened capacities of priority Drug Addiction Treatment Centers (DATCs) for an improved and inclusive package of drug abuse rehabilitation services*

> Support to two DTCs (Badghis 20 beds DTC and Jawzjan 20 beds women and child DTC) including human resource cost and running cost

| ***Indicators*** | ***Target*** |
|---|---|
| Number of beds operational on regular basis (throughout the intervention period) for treatment and rehabilitation of drug use disorder | 20 |

*Output 3: Enhanced follow-up and resilience amongst target communities to prevent and mitigate drug use disorder*

> Establish six outreach mobile teams for two DTCs

3 Outreach teams will be attached to each DTC (Herat and Nangarhar) and will conduct daily visits (home visit, hotspot) based on pre-established plan ensuring screening, follow up and prevention activities.

[1] 50% of total nb of patients - 150 beds/45 days treatment/8 treatment cycle per year = 1,200 patients

| ***Indicators*** | ***Target*** |
|---|---|
| Number of villages covered through regular follow-up support services | 10 |
| Number of DATC Outreach Mobile teams fully functional on ground with female personnel included | 6 |
| Number of people reached through published communication materials | 100,000 |
