

7th NDS Usergroup Meeting (Mexico City, September 2009)

National Drug Control

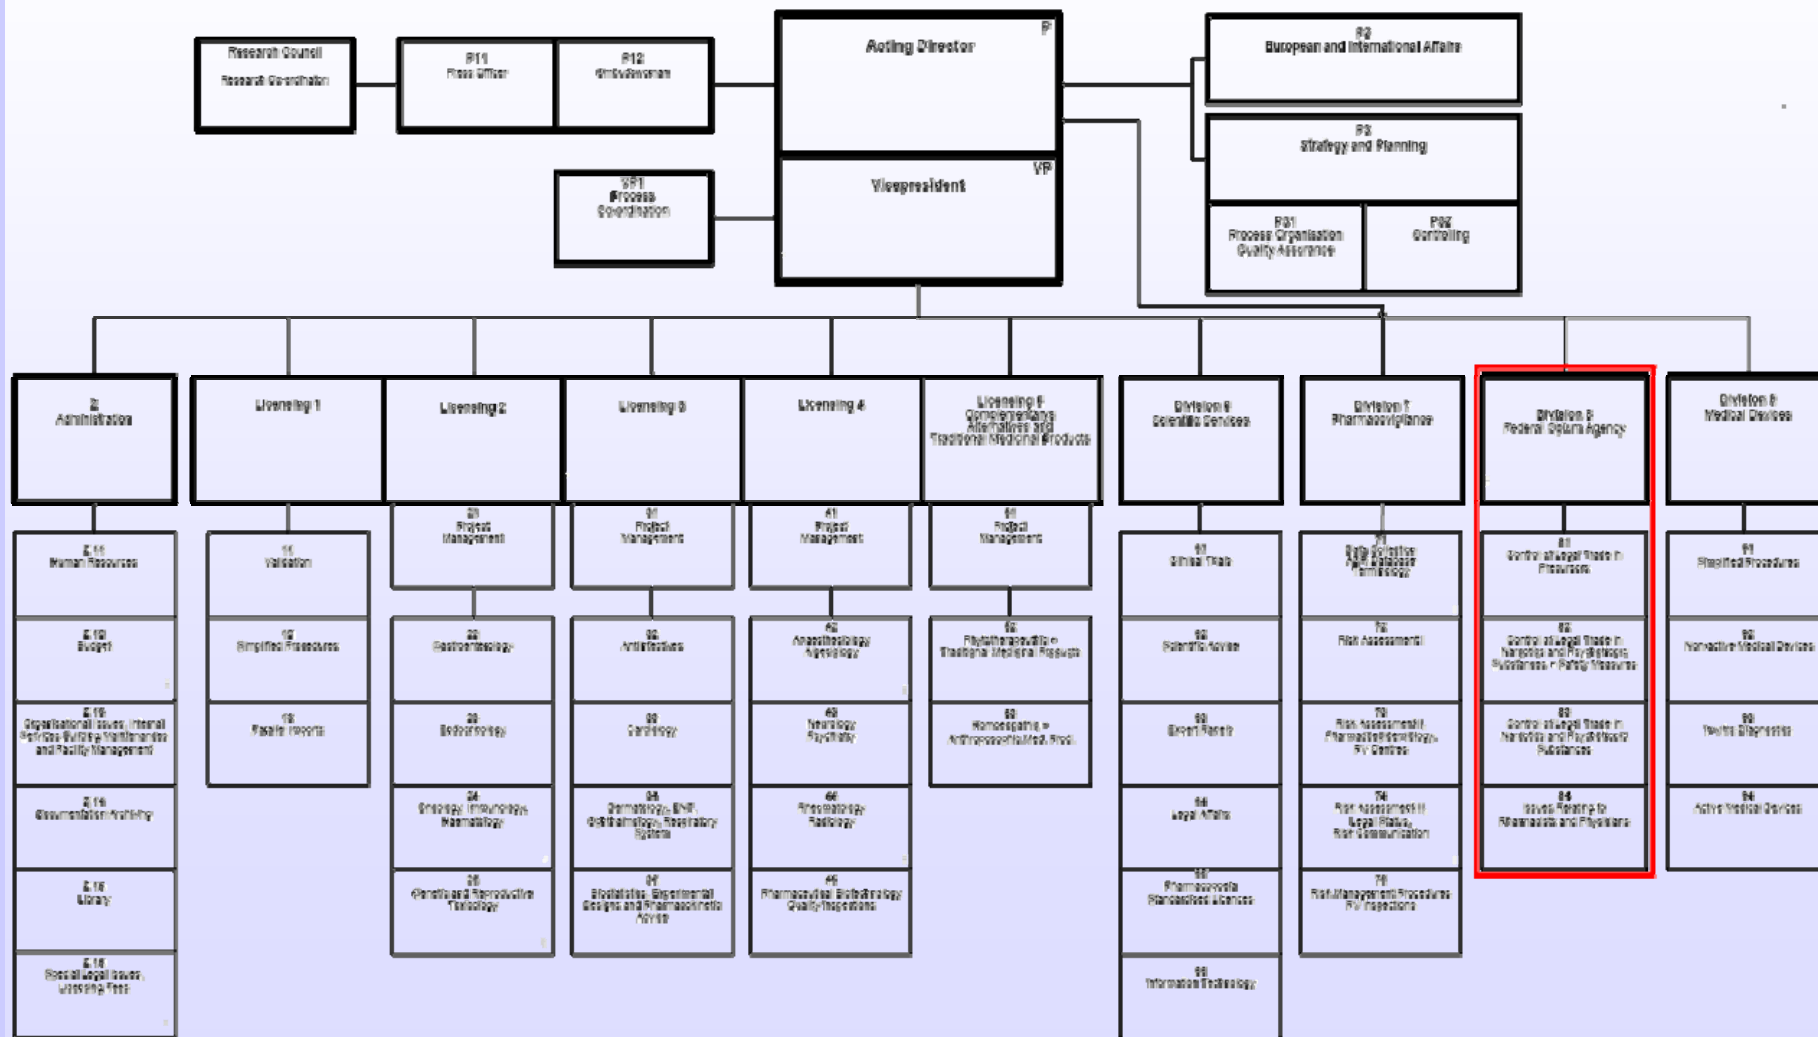

Dirk Ohlenforst

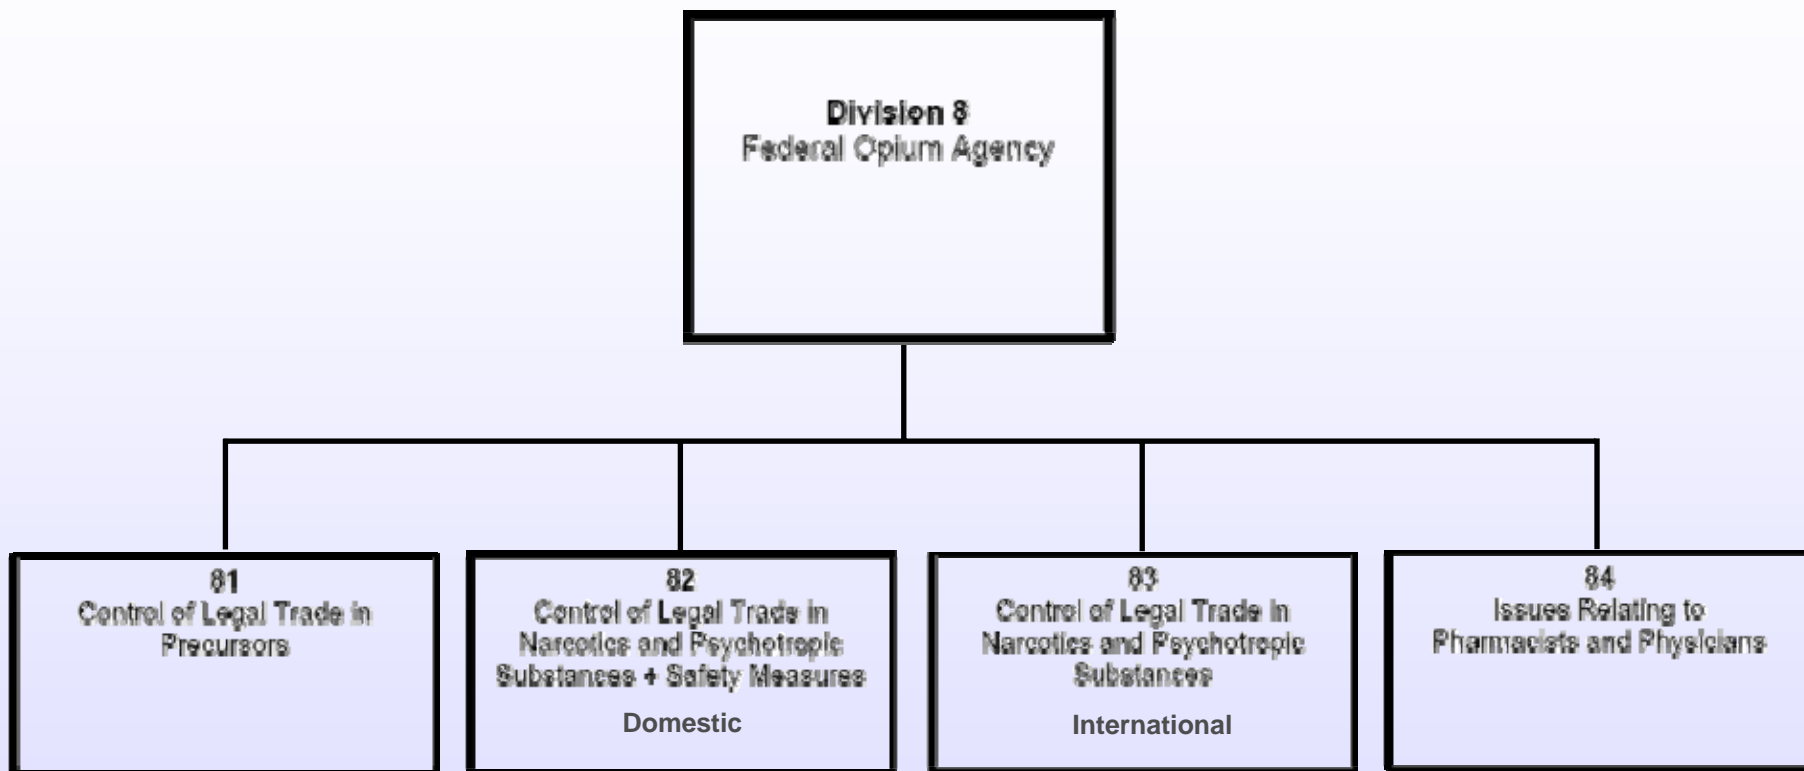

Federal Institute for Drugs and Medical Devices
Federal Opium Agency
(Germany)

The BfArM

The Federal Opium Agency

Scope of national control (I)

1961 / 1971 Convention

- General licences (August 2009)
 - Approx. 13.000
 - Plus approx. 23.000 pharmacy shops
- Domestic trade
 - Approx. 25.000 records per day
 - Approx. 6.000.000 records in 2008
- International trade
 - Approx. 5.000 import authorizations per year
 - Approx. 5.000 export authorizations per year

Scope of national control (II)

1961 / 1971 Convention

- paper reports by permission holder (on a 6-month basis) per substance (on salt-basis) of
 - Inventory
 - Quantities
 - Manufactured
 - Traded Domestically
 - Traded International (Imports / Exports)
 - Losses
 - Destructions
 - Balances
- Subsequent assessment of these reports
 - to ensure control according to conventions & national §§

Scope of national control (III)

1961 / 1971 Convention

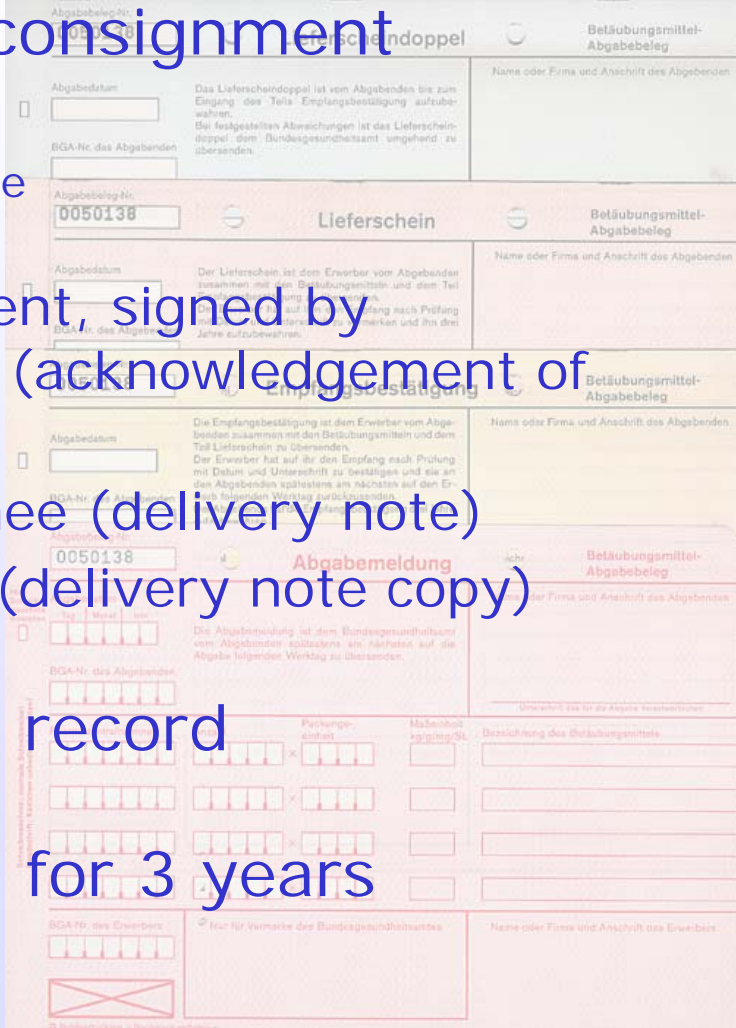

- Inspections
 - conducted at all general permission holders
 - conducted every two-years according to national §§

BUGIS

- National Drug Control Software since 2000
 - Replaced a previous software
- To support (inter-)national control of
 - Substances/preparations according to 1961 Convention
 - Substances/preparations according to 1971 Convention
 - Substances according to 1988 Convention
- To generate reports for the INCB
 - Since 2008 generation of NDS-compatible .xml reports (1961, 1971 Convention)

Domestic trade (I)

- Quadruplicate record for each consignment
 - original to be sent to BfArM
 - BfArM: Scan record → OCR → Database
 - Remember: 25.000 records per day
 - 1st copy to be sent with consignment, signed by consignee and returned to sender (acknowledgement of receipt)
 - 2nd copy to be retained by consignee (delivery note)
 - 3rd copy to be retained by sender (delivery note copy)
- Consignment of 4 products per record
- Records to be archived at least for 3 years by sender / consignee

The image shows a vertical stack of four German regulatory forms related to drug consignment. From top to bottom:

- Lieferscheindoppel**: A double-copy form for the delivery note, with fields for 'Abgabedatum' and 'BfArM-Nr. des Abgebenden'.
- Lieferschein**: The original delivery note, featuring a prominent BfArM number '0050138' and a 'Name oder Firma und Anschrift des Abgebenden' field.
- Empfangsbestätigung**: A receipt form for the consignee, with a 'Name oder Firma und Anschrift des Abgebenden' field.
- Abgabemeldung**: A reporting form for the sender, containing a table for product details (Packungseinheit, Maßinhalt) and a 'Name oder Firma und Anschrift des Erwerbers' field.

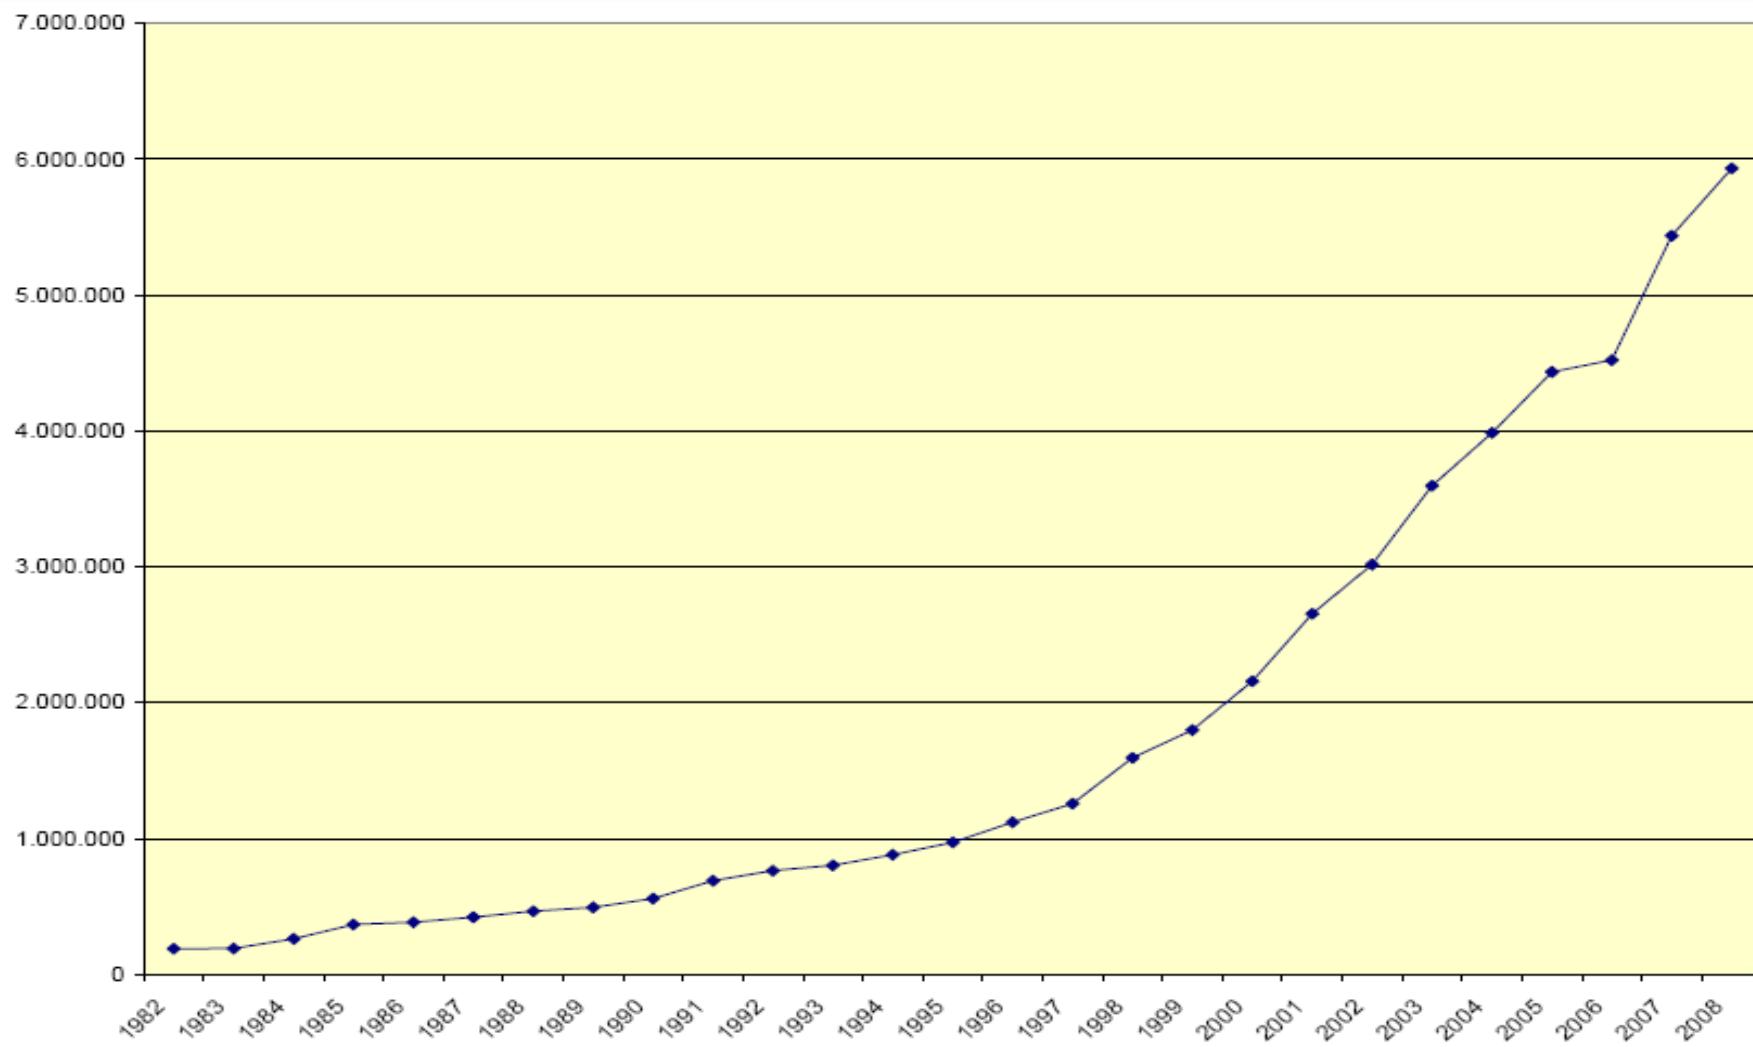

Domestic trade (III)

Development(s) planned to be realised

- Replace quadruplicate (by federal print-office) pre-printed record with quadruplicate self-printed record
- Change format to DIN A4
- Increase products per record from 4 to 6
- Electronic submission to BfArM
- Old records remain valid

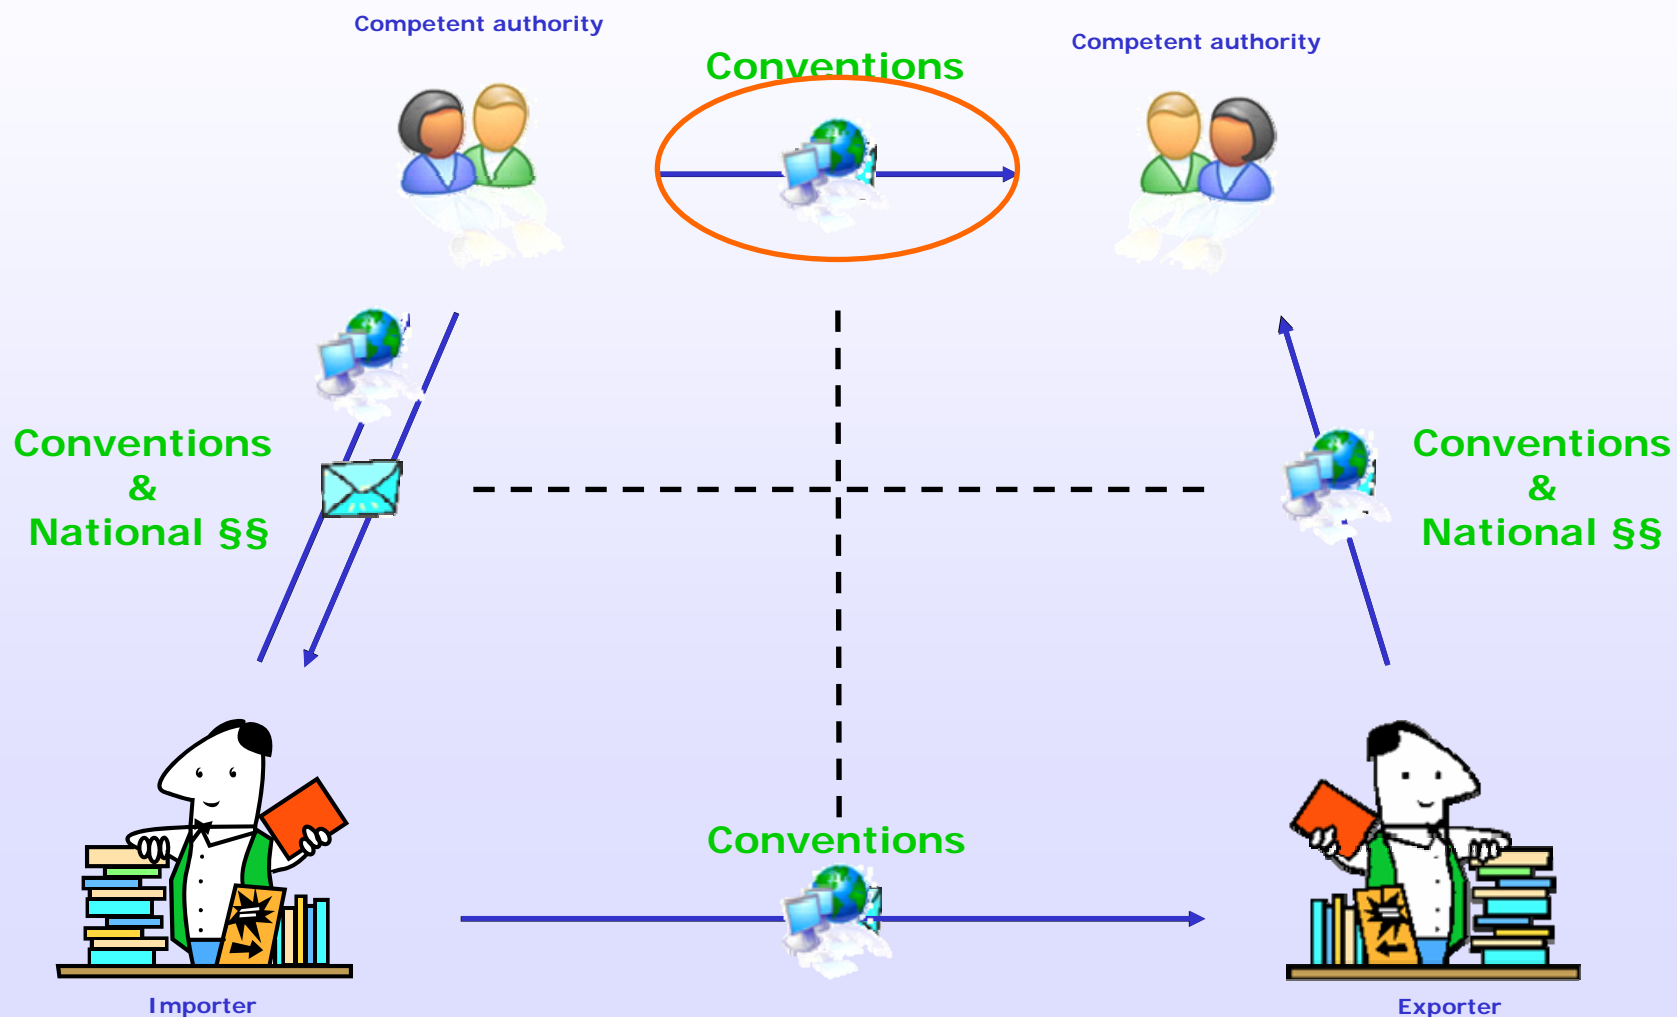

Abgabebeleg-Nummer 00006108	Abgabemeldung				Muster Abgeber Musterbezeichnung 9999999  Unterschrift des Abgebenden und Name Klartext
Abgabemerkmal (Musterbezeichnung) 010108 BIM Nummer des Abgebenden 9999999	Die Abgabe von Arzneimitteln und Medizinprodukten vom Abgebenden spätestens nach Ablauf einer Woche zu übermitteln.

Domestic trade (IV)

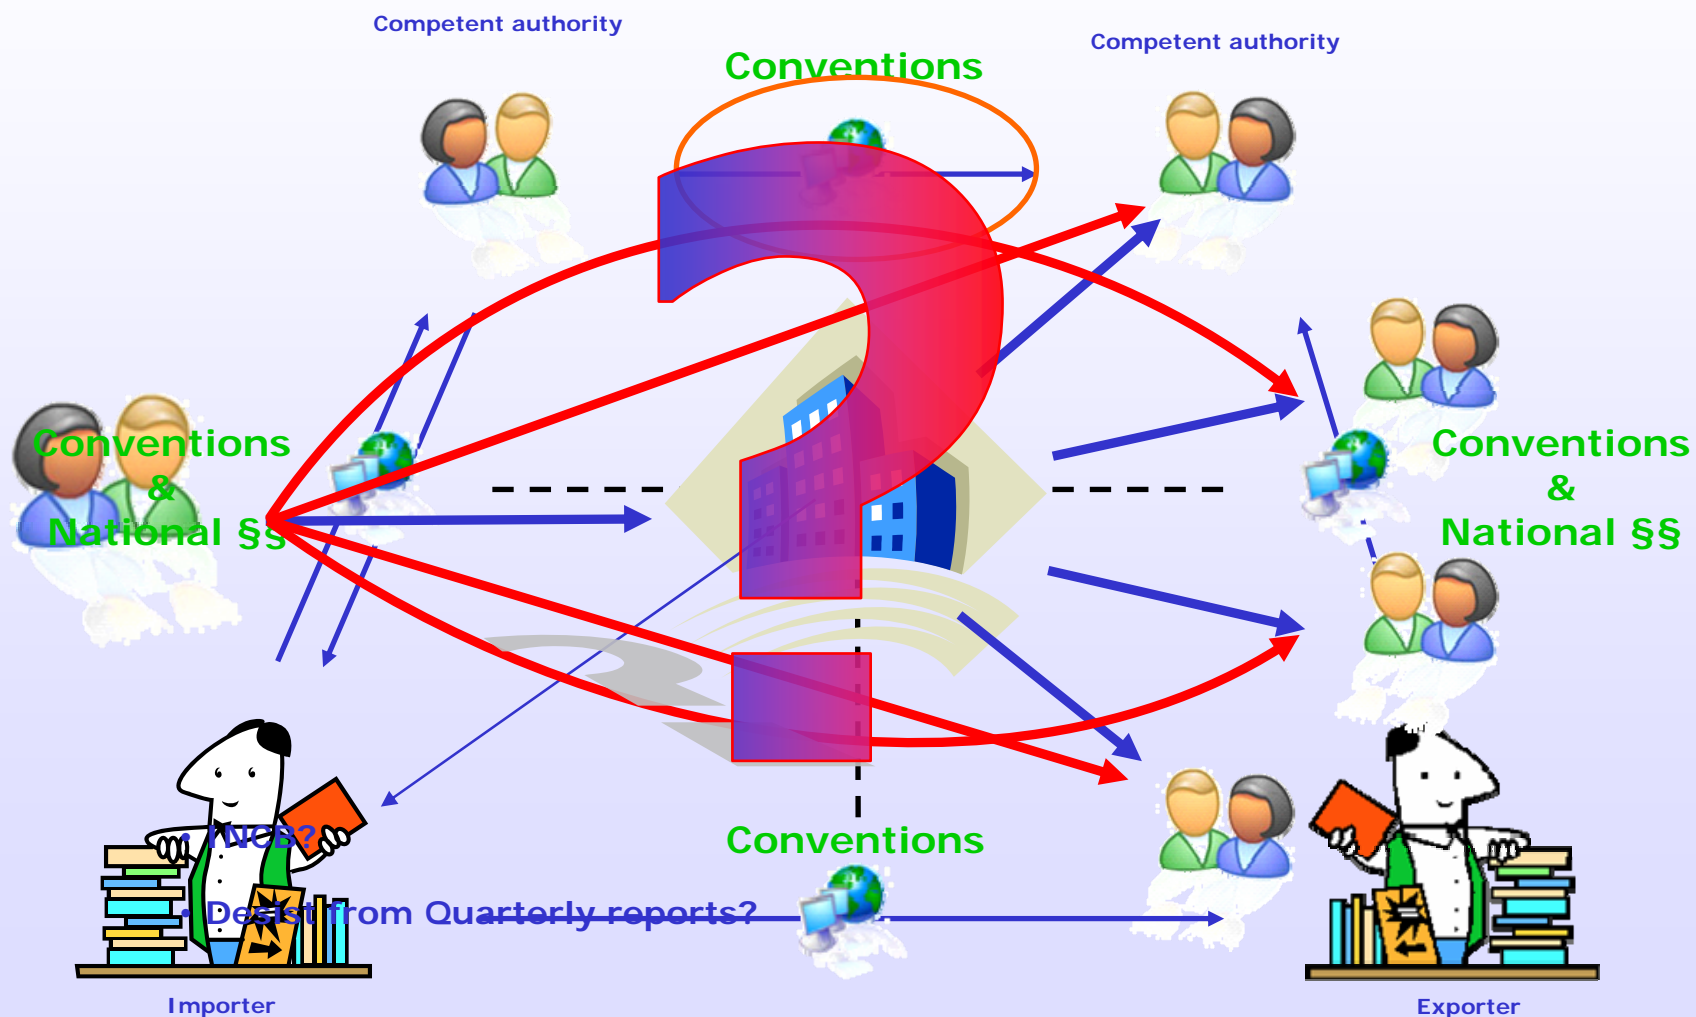

Imports / Exports (I)

1961 / 1971 convention

Imports / Exports (II)

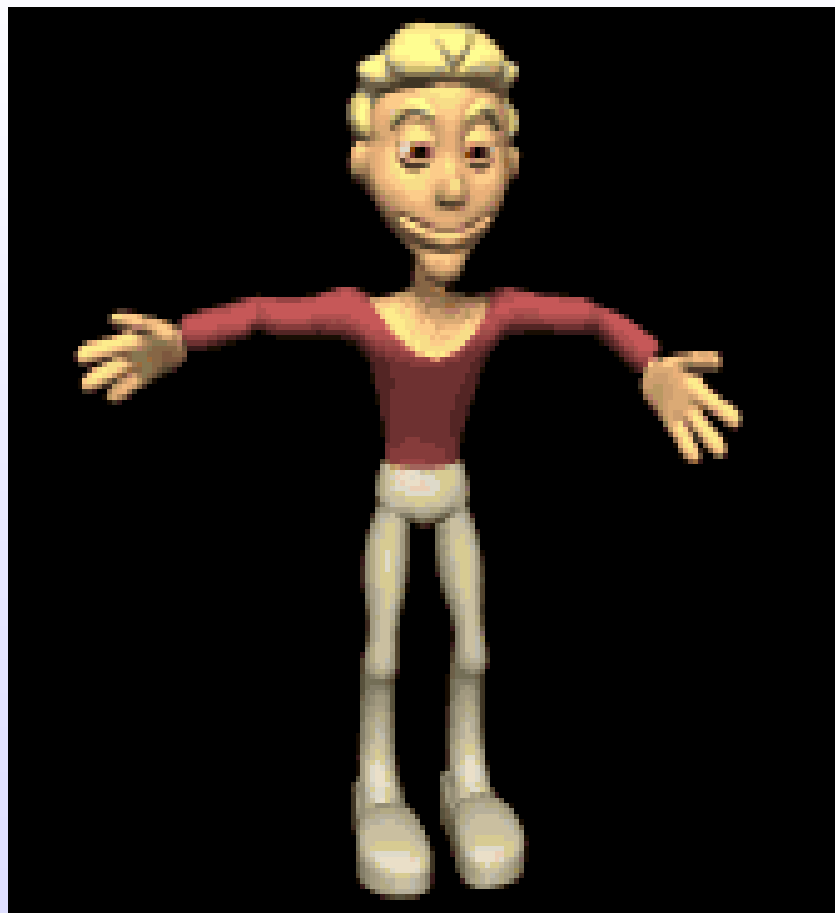

1961 / 1971 convention
Electronic data exchange between Competent authorities

Conclusion

- Our Expectation is
 - to establish the electronic inter-competent authority data exchange
 - to be able to communicate with NDS software furthermore
- To do so
 - we would like to participate in the development of electronic data exchange principles
 - we have to make efforts to upgrade our BUGIS

Thank you very much
