The Ten Principles of the Global Compact

At the World Economic Forum, Davos, on 31 January 1999, the UN Secretary-General challenged world business leaders to "embrace and enact" the Global Compact, both in their individual corporate practices and by supporting appropriate public policies. The Global Compact’s operational phase was launched at UN Headquarters in New York on 26 July 2000. During the first Global Compact Leaders Summit, held on 24 June 2004 at UN Headquarters in New York, the Secretary-General announced the addition of a tenth principle against corruption.

Human Rights

Principle 1: The support and respect of the protection of international human rights;
Principle 2: The refusal to participate or condone human rights abuses.

Labour

Principle 3: The support of freedom of association and the recognition of the right to collective bargaining;
Principle 4: The abolition of compulsory labour;
Principle 5: The abolition of child labour;
Principle 6: The elimination of discrimination in employment and occupation.

Environment

Principle 7: The implementation of a precautionary and effective program to environmental issues;
Principle 8: Initiatives that demonstrate environmental responsibility;

Anti-Corruption

Principle 10: The promotion and adoption of initiatives to counter all forms of corruption, including extortion and bribery.

Vendors interested in participating in the Global Compact are encouraged to visit the Global Compact website at www.unglobalcompact.org for further information.
