Resolution 19/1

**Strengthening public-private partnerships to counter crime in all its forms and manifestations**

_The Commission on Crime Prevention and Criminal Justice_,

*Aware* of the increasing number of public-private partnerships worldwide,

*Emphasizing* that States have primary responsibility for public order, safety and security,

*Emphasizing also* that, given the nature and scale of today’s constantly evolving criminal challenges and threats, Member States may need the active engagement of the private sector, as an important element of civil society, to successfully counter those challenges and threats,

*Bearing in mind* the Salvador Declaration on Comprehensive Strategies for Global Challenges: Crime Prevention and Criminal Justice Systems and Their Development in a Changing World, in which Member States recognized the importance of strengthening public-private partnerships in preventing and countering crime in all its forms and manifestations, and convinced that, through the mutual and effective sharing of information, knowledge and experience and through joint and coordinated actions, Governments and businesses can develop, improve and implement measures to prevent, prosecute and punish crime, including emerging and changing challenges,

*Mindful of* the fact that much of the international information, communications and commercial infrastructure targeted or exploited by criminals and terrorists is developed, operated and maintained by the private sector,

*Recognizing* the support and participation of the private sector in ongoing initiatives of the United Nations Office on Drugs and Crime to counter crime in all its forms and manifestations,

*Recognizing also* that strategic engagement with the private sector is an effective method for advancing United Nations goals, including the Millennium Development Goals,

*Recalling* the Political Declaration and Plan of Action on International Cooperation towards an Integrated and Balanced Strategy to Counter the World Drug Problem,

*Bearing in mind* the important contributions of the private sector in enhancing the effectiveness of the relevant international legal instruments dealing with drugs, crime and terrorism,
