Note by the Secretariat

I. Opening of the high-level segment

1. In section I of its resolution 1999/30, the Economic and Social Council recommended that the Commission on Narcotic Drugs should convene, whenever appropriate, ministerial-level segments of its sessions to focus on specific themes related to the follow-up to the twentieth special session of the General Assembly. At its forty-third session, in 2000, the Commission agreed to convene a ministerial-level segment at its sessions in 2003 and 2008 to coincide with the two target dates for achieving the goals and targets agreed upon by the Assembly at its twentieth special session.

2. The Commission, in its resolution 50/12, decided to convene a high-level segment, open to all States Members of the United Nations, during its fifty-second session, in 2009, instead of convening a ministerial segment in 2008, pursuant to Economic and Social Council resolution 1999/30 and the agreement reached at the forty-third session of the Commission, in order to allow additional time for conducting an objective, scientific, balanced and transparent global assessment of the implementation of the declarations and measures adopted by the General Assembly at its twentieth special session.

* E/CN.7/2009/1.

3. In its resolution 51/4, the Commission decided that two days should be devoted to the high-level segment of its fifty-second session. The proposed programme of work for the high-level segment is contained in annex II. The arrangements for participation in the high-level segment were endorsed at an intersessional meeting of the Commission held on 29 September 2008.

II. General debate of the high-level segment

4. At its fifty-first session, the Commission agreed that the high-level segment would consist of a general debate and, in parallel, a series of round-table discussions. The general debate would review the progress achieved and the difficulties encountered by Member States in meeting the goals and targets set out in the Political Declaration adopted by the General Assembly at its twentieth special session (General Assembly resolution S-20/2, annex) and challenges for the future.

List of speakers

5. The list of speakers for the general debate will be established by the drawing of lots on 20 February 2009 and will be printed in the daily journal.

Duration of statements

6. Speakers are requested to keep their statements to a maximum of 5 minutes to enable the representatives of all Member States to address the two-day high-level segment.

III. Round-table discussions during the high-level segment

7. The Commission, at its fifty-first session, proposed that round-table discussions should be held in parallel with the general debate of the high-level segment and that those discussions should focus on the various aspects covered at the twentieth special session of the General Assembly. The four themes approved for the round-table discussions are:

- (a) Current and emerging challenges, new trends and patterns of the world drug problem and possible improvements to the evaluation system;
- (b) Strengthening international cooperation in countering the world drug problem using shared responsibility as a basis for an integrated, comprehensive, balanced and sustainable approach in the fight against drugs through domestic and international policies;
- (c) Demand reduction, treatment and preventive policies and practices;
- (d) Countering illicit drug traffic and supply, and alternative development.

8. The format and organization of the round-table discussions are presented in annex I.

9. Each Member State may, in principle, participate in one or two round-table discussions, following consultations with the Chairman of the regional group of

which it is a member and with the Chairman of the round table (or each of the round tables) in question.

10. The allocation of seats for United Nations entities, intergovernmental organizations and non-governmental organizations at the round-table discussions will be decided after 20 February 2009, when the Member States will have indicated which round-table discussions they wish to participate in.

IV. Adoption of the political declaration and other declarations

11. In its resolution 51/4, the Commission resolved that a political declaration and, as appropriate, other declarations and measures to enhance international cooperation should be considered and adopted at the high-level segment, identifying, on the basis of the results of the review process, future priorities and areas requiring further action, as well as goals and targets to be set in countering the world drug problem beyond 2009, and also resolved that the outcome of the high-level segment should be submitted to the General Assembly.

12. A draft political declaration and draft plan of action, initiated by the Chairperson of the Commission, were reviewed by Member States between 3 November 2008 and 27 January 2009. A total of 33 open-ended informal consultations were held to negotiate the texts and further meetings were planned. The draft political declaration and draft plan of action will be made available at the high-level segment.

V. Closure of the high-level segment

13. Member States will adopt the political declaration and plan of action, and the chairmen of the round tables will present the outcome of the round-table discussions.
