The Justice System is scattered among the various agencies.

Each agency keeps statistics for their own purposes.

The Office of Justice Affairs established the Centre for Justice Statistics (CJS) in 2008 as a centre to collect data that was previously dispersed among various justice agencies and develop sustainable model for the storage of data on the justice system.

In 2015 Centre for Justice Statistics was firstly assigned to complete UNCTTS form to UNODC
Our Responsibilities

- One Stop Service for Justice Data
- Develop data collection system
- Data Gap
- Analytical reports on crime and justice
- UNCTS
- Crime Victimization Survey
- Justice Indicators
- SDGs indicator Goal 16
Victim Survey

- Victim 152,288
- Property Crime 140,864
- Violence 7,879
