17 Languages Available

350 Training Modules

284,216 Hours of eLearning Training Delivered

197 Countries Connected to the Programme

14 Operational Mobile Training Units

8 eLearning Centres

436 Social Media Communications (Twitter/Facebook)
April 15, 2017

VIENNA – The UNODC Global eLearning Programme is pleased to announce the launch of the updated and enhanced version of its eLearning platform used by over thousands of participants from the Member States’ government authorities, international organisations and the general public. The new platform provides a fast and efficient way of accommodating the increasing amount of users that have grown from 3,000 in early 2015 to 30,000 in 2017.

On the 3rd April 2017, the new Learning Management System began giving learners the ability to access new features. Users of this brand new and state-of-the-art learning platform will experience the following improvements:

We have improved the main features of the platform to increase potential and expand capacity by all means.

---

**Welcome to UNODC eLearning**

"Delivering knowledge where and when it is needed"

The United Nations Office on Drugs and Crime is a global leader in the fight against illicit drugs, crime in all its forms, and terrorism.

The UNODC eLearning Management System is the ultimate and most advanced capacity building tool designed to reach officials of Member States in any location. The eLearning platform offers a variety of courses and modules capable to deliver a modern form of training in a secure and cost-effective way.

Thanks to this form of learning, UNODC enables users to access UN and international standards directly from their desks and in their languages.

The access to this platform is reserved to officials of Member States, International Organizations, and other UN agencies and UNODC partners. If you are interested in accessing the platform for learning purposes please contact your closest UNODC office (http://www.unodc.org/unodc/en/field-offices.html) or contact us.

For a comprehensive overview of UNODC’s mission, goals and services please consult http://www.unodc.org.

The UNODC eLearning programme is funded by the governments of Australia (Australian Federal Police and Department of Immigration and Border Protection), Japan, Norway, Sweden, and the United States of America.
Minimal, cutting-edge design that is easy to navigate
- Simplified account creation
- Compatible with all devices (e.g., desktop, tablets and mobile)
- Improved advanced course search
- Streamlined learning record management
- Quality assistance, including 24/7 Helpdesk support and easy-to-understand documentation

“We have improved the main features of the platform to increase potential and expand capacity by all means,” says Nicolas Caruso, the Production Associate of the Global eLearning team. “The result: a more user-friendly platform and a faster and more accurate access to statistics enabling a more precise analysis of training impact.”

The updated platform is now available on www.golearn.unodc.org. Information on current courses and services being offered remains at www.unodc.org/elearning.

The notifications on the homepage will guide existing users through steps to access their learning records on the old archived platform until 30th of June 2017, on the following URL: www.golearn-archive.unodc.org/olat/dmz.

Afterwards, access to the records can still be required through the helpdesk. Users of the old LMS are advised to re-register to the new system, since there will be no data migration from the old to new platform. This condition was retained in order to create accurate statistics. These anonymous statistics will allow to anticipate future improvements. Registered users will be notified once they receive access to particular courses.

Any concerns and questions can be directly sent to our Helpdesk elearning@unodc.org. One can also connect and share feedback with the Global eLearning Team through our social networking channels, such as Facebook: facebook.com/unodcglobalelearning and Twitter: @unodc_elearning.
CND 2017 WELCOMES ELEARNING AS A NEW METHOD OF TRAINING

VIENNA – A draft resolution from the 60th session of the Commission on Narcotic Drugs (CND), held from 13-17 of March 2017, welcomes the efforts of the UNODC to assist in the application of innovative methods of training of law enforcement officials, including through e-learning.

This draft resolution, entitled Enhancing capacity of law enforcement, border control and other related agencies to counter illicit drug trafficking through training, invites Member States to apply e-learning in one of their domestic training programmes on drug-related issues.

Jakarta Centre for Law Enforcement Cooperation improved security through capacity building

INDONESIA – During the first quarter of 2017, JCLEC was visited by several senior dignitaries and law enforcement organizations. The Ambassador of Canada to Indonesia, the Ambassador of Australia for Counter-Terrorism, Australian Border Force and Indonesian Coast Guard (Bakamla) representatives were introduced to the Global eLearning Programme, as one of the main capacity building training facilitations.

Some of the Global eLearning training modules are mandatory for the participants. This includes the investigation skills training that were held in January, and the Indonesian-Timor Leste border cooperation Programme held in February. In addition, eLearning trainings on other various topics at JCLEC are offered to be taken on one’s own initiative.

The Global eLearning Programme received positive and valuable feedback. Whereas, many participants expressed their interest for more training modules to be translated into Bahasa language, along with the mobile access feature.
Ambassador of Denmark to Pakistan appreciates the contribution of eLearning in strengthening the country’s law enforcement capacity

On January 26th, 2017 the Ambassador of Denmark to Pakistan visited the Global eLearning centre, established by UNODC at Islamabad Capital Police - Security Division Office in the Diplomatic Enclave. He was accompanied by the UNODC’s Pakistan Representative and senior officials of the Embassy of Denmark in Pakistan.

While the training session for Islamabad Police officials was in progress in the eLearning centre, The Ambassador of Denmark had the opportunity to examine and observe the Global eLearning Platform. It is a significant additional training for a large number of police officials.

The Ambassador assured that the Government of Denmark supports the capacity building initiatives of the UNODC for the law enforcement in Pakistan. The Ambassador appreciated the UNODC’s efforts regarding the widely implemented Global eLearning Programme in Pakistan which is available through 50 eLearning centres in collaboration with 20 law enforcement agencies.

UNODC Pakistan, with the support of Global eLearning Programme, ensures that the relevant eLearning courses are incorporated into the training curricula of law enforcement at large for better knowledge transfer to law enforcement personnel.

MURREE, PAKISTAN – UNODC’s Country Office in Pakistan, under the Border Management Programme, offered eLearning modules to law enforcement officials in a training workshop conducted from 17-21 April 2017. The inter-agency workshop, titled ‘Operationalization of the Criminal-Intelligence Products’, was attended by participants from Anti-Narcotics Force Pakistan, Federal Investigation Agency Pakistan, Pakistan Customs, and the FATA Secretariat.

In order to maximise the training impact, eLearning modules on Basic Intelligence, Intelligence Analysis and Financial Investigation were integrated in the course syllabus, which helped the participants understand the basic and modern techniques used in collecting and analysing criminal intelligence.

Transformation of the training platform from CBT to eLearning in Pakistan

In line with UNODC Pakistan Country Programme-II Strategy, UNODC Pakistan aims to enhance the border interdiction capacity of Pakistani law enforcement through the latest Global eLearning Platform. In this regard, under the Border Management Programme, the localization of five eLearning modules has been initiated, covering the topics of interdiction techniques, observations at border controls, searching, risk assessments, and questionings at border controls.

The scripts of the aforementioned eLearning modules have been translated and voice over files produced in Urdu language. The UNODC Global eLearning Programme will make available the localized modules in Urdu to Pakistani learners, with an explicit option of on-line delivery of training under the eLearning environment by end of 2017.

UNODC’s Country Office in Pakistan is making all efforts to adequately resource the eLearning Programme in Pakistan for further localizations (in Urdu language) of eLearning modules. In this regard, the Country Office agreed on a cooperation with the UNODC Global eLearning Programme, under the Sub-programme-1 of the Pakistan Country Programme (Illicit Trafficking and Border Management), to upgrade the training delivery platform from CBT into full eLearning and to provide all updated eLearning modules in English at all existing eLearning centres in Pakistan.

GLOBAL ELEARNING COURSES PER UNODC THEMATIC AREA

The UNODC Global eLearning Programme develops learning contents in collaboration with UNODC senior international experts in each specific thematic field. Current security and human threats such as transnational organized crime, illicit drugs, trafficking in persons and smuggling of migrants, and issues relating to border control, forensics and laboratories, controlled deliveries, security and travel documents, intelligence, HIV and AIDS and human rights are covered by 21 courses.
The CCPCJ will hold its twenty-sixth session on May 22-26, 2017 in Vienna and the thematic discussion will focus on on the subject of “Comprehensive and integrated crime prevention strategies: public participation, social policies and education in support of the rule of law”.

The Commission on Crime Prevention and Criminal Justice is the central body within the United Nations system dealing with crime prevention and criminal justice policy, including trafficking in persons, transnational crime and aspects of terrorism prevention. It monitors the use and application of relevant United Nations standards and norms and guides policy development in response to emerging forms of crime. It offers Member States a forum to exchange expertise, experiences and information, to develop national and international strategies and to identify priorities for combating crime.

The Global eLearning Programme will participate together with the Global Programme against Money-Laundering (GPML) on the CCPCJ side event on 25 May 2017, 11:00 - 2:00 PM, entitled “Investigation of money laundering and terrorism financing with the cryptocurrencies.” This event is organized by the UNODC Division for Treaty Affairs and will take place at Conference Room M3 at the Vienna International Centre. Interested parties are kindly invited to participate in this event.
