UNODC Opioid Strategy

Leading a global response to the opioid crisis

Ms. Asma Fakhri
Coordinator, UNODC Opioid Strategy
Programme Management Officer, Laboratory and Scientific Section (LSS)
The Five Pillar UNODC Opioid Strategy

Early warning and trend analysis
*Generating evidence in support of effective policy decisions and operational responses*

Rational prescribing and access to opioids for medical and scientific use
*Promoting interagency cooperation in addressing the non-medical use of opioids*

Prevention and treatment programmes
*Strengthening and supporting prevention and treatment programmes related to opioids*

International law enforcement operations to disrupt trafficking
*Enhancing operational activities to prevent the diversion and trafficking of synthetic opioids*

Strengthening national and international counternarcotic capacity
*Raising awareness, sharing best practices and promoting international cooperation*
282 COLLABORATING LABORATORIES IN 90 COUNTRIES

ONE OBJECTIVE... QUALITY FORENSICS

LATIN AMERICAN FOCUS

17 COUNTRIES SUPPORTED

60 LAW ENFORCEMENT, FORENSIC & CUSTOMS OFFICERS TRAINED

34 ADVANCED DRUG IDENTIFICATION DEVICES PROVIDED
• Further develop **UN Toolkit on Synthetic Drugs** with new modules and easier accessibility. PTRS / UPU / WHO / INCB / Global SMART Programme / CCP / Cyber-Crime & Anti-money Laundering

• Expand on **inter-agency and across UNODC partnerships** to further support field responses in SEAP/ WAF / LAC

• **Regional workshops**: strengthen regional & national capacity to identify a tailored comprehensive, integrated response to the opioid crisis

• Develop & train on guidelines for **profiling of mail/postal parcels & enhanced control** of mail parcels used for drug trafficking CRIMJUST / UPU
  12 countries trained (LAC, W/E. Africa)
  2 regional operations
• **Disrupt online (clear/darknet/cryptocurrencies) trafficking** in synthetic drugs, including synthetic opioids and their precursors. **Global Cybercrime and Anti-Money Laundering Programme**
  
  3 countries SEAP / South Asia

• **Capacity of Port Control Units** strengthened to interdict synthetic drugs including synthetic opioids and their precursors **UNODC/WCO Container Control Programme**
  
  4 countries SEAP / S. Asia

• **Improve generation of synthetic drug data – early warning systems** / Preventing the diversion of precursor and pharmaceuticals and improving interdiction of synthetic drugs **Global SMART Programme**
  
  LAC and 3 countries S. Asia
- Enhanced capacity of judiciary to prosecute synthetic opioid/Preventing the diversion of precursor and pharmaceuticals and improving interdiction of synthetic drugs cases CRIMJUST Guidelines to prosecutors and judges
  2 regional training workshops

- Strengthen capacity of detection, identification, safe handling and disposal of synthetic drugs including synthetic opioids for law enforcement and border control officers Global Forensic Science Programme
  Guidelines on safe-handling for non-forensic personnel
  Training in 8 countries (SEAP/LAC)

- Focus on SEAP and Precursors:
  Reduce the risk of illegitimate production, diversion and trafficking of precursor chemicals and emerging substances, in particular synthetic opioids, in East and Southeast Asia.
  ROSEAP - Precursors Programme
