Tablet
ATS Trafficking routes

- North-West border area;
- Southern-West border area
On the Vietnam - China border line, at the same time exist two drug trafficking directions. Psychotropic substances and ATS were trafficked into Vietnam, meanwhile, opium, heroin were trafficked into China. There were a number of trafficking routes in the area of Quang Ninh, Lang Son, Lao Cai, Cao Bang provinces.
On the South - West border line, the main types drugs trafficked from outside were heroin and ATS; The entry points located in Tay Ninh, An Giang, Kien Giang provinces.
Trend on drug crime situation

- an increase in criminal activities of international drug criminal gangs, especially ones originating from Africa

- Modus operandis used by the drug traffickers become more and more sophisticated
ATS abusers

- The majority of crystal synthetic drug users are young persons living in big towns and cities

- The rate of ATS abuse is on the rise
Activities which focus on reducing ATS threats

- Close cooperation between the drug control task forces under Ministry of Public Security, Border Army, Maritime Police (Ministry of Defense) and Customs (Ministry of Finance)

- Anti-Drug propaganda and education

- Drug prevention in school

- International cooperation
