Draft questionnaire for the review of the implementation of the Protocol against the Illicit Manufacturing of and Trafficking in Firearms, Their Parts and Components and Ammunition, in accordance with resolution 8/2 of the Conference of the Parties to the United Nations Convention against Transnational Organized Crime

Note by the Secretariat

At its eighth session, the Conference of the Parties to the United Nations Convention against Transnational Organized Crime decided to continue the process of establishing the mechanism for the review of the implementation of the United Nations Convention against Transnational Organized Crime and the Protocols thereto, and that such mechanism shall progressively address all the articles contained in the Convention and the Protocols thereto (Conference resolution 8/2).

The Conference decided also that the review mechanism shall be conducted within the Conference and its existing working groups, which shall add the matter as an item to their agenda, consistent with their areas of expertise and without prejudice to their respective existing mandates, and that for that purpose, each relevant working group shall define, in the next two years, with the assistance of the Secretariat, a short, precise and focused self-assessment questionnaire.

The present questionnaire was developed pursuant to this mandate, to collect information from States parties and signatories to the Protocol against the Illicit Manufacturing of and Trafficking in Firearms, Their Parts and Components and Ammunition (Firearms Protocol), in accordance with Conference resolution 8/2.

The questionnaire builds on previous information-gathering questionnaires developed by the Secretariat and adopted by the Conference at its second session\(^1\) and covers all relevant provisions of the Protocol.

\(^{1}\) CTOC/COP/WG.6/2017/1.

It was based on the following general principles:

- In order to avoid the need for extensive interpretation, questions contain language on concrete measures instead of generic references to the Protocol and Convention provisions.

- Asterisks (*) after some sections or single questions indicate the optional nature of the Protocol provision on which the question(s) are based, or the optional nature of the measures put in place by States in order to implement specific Protocol provisions.

- To ensure coherence of the questions and within the questionnaire, and to facilitate understanding of the content and context of the questions, one introductive question is generally followed by one or more questions (a, b, c) on details regarding the implementation of the instrument under review.

- Questions aim at providing a basis for the review of the legislative transposition as well as the practical implementation of measures provided in the Protocol.

- Where appropriate, questions also relate to the mutatis mutandis application of the Convention on specific matters falling under the scope of application of the Protocol.
