CENTER

ONLY PROPER MEDICAL AND
EMOTIONAL SUPPORT WILL HELP

9. DON'T STIGMATISE DRUG USERS. ONLY PROPER MEDICAL AND EMOTIONAL SUPPORT WILL HELP.

Drug addiction is like any other disease that needs proper medical care. A user must be taken to a detoxification and rehabilitation centre. Treatment works but it takes time, patience, spiritual, emotional and physical strength on the part of the users and care givers. Family support at this time can make or break the recovery. Any attempt to stigmatise and discriminate against the drug user can only make matters worse. If you know someone who is using drugs, guide him to the nearest treatment centre.
