1.	Preface	5
2.	Acknowledgements	9
3.	Reducing risk-behaviour among young drug users.	11
4.	First week's sessions	
	Activity 1. Meeting Strangers.	23
	Activity 2. Objectives of the training programme.	24
	Activity 3. Problems faced by the drug users – with a focus on health hazards.	25
	Activity 4. Basic concepts: infection, disease and disease causing micro-organisms, modes of transmission: Basic facts about HIV, Hepatitis B, Hepatitis C.	26
	Activity 5. Role modelling – concept – acting as if. Demonstration of acting like a role model – role play.	28
	Winding up - Graded goal setting.	30
5.	Second week's sessions	
	Activity 1. Recap of previous session.	31
	Activity 2. Debriefing experience of training peer group members through the experiential learning cycle – positive reinforcement by recognition.	32
	Activity 3. Behaviour change communication; stages of change;	33
	Activity 4. Risks taken by drug users.	36
	Activity 5. Identification of risk-behaviour.	36
	Activity 6. Practice of training others – rehearsal sessions – on change hierarchy.	39
	Winding up - Graded goal setting.	39
6.	Third week's sessions	
	Activity 1. Recap of previous session.	41
	Activity 2. Debriefing experience of training peer group members through the experiential learning cycle – positive reinforcement by recognition.	42
	Activity 3. Leadership skills – Identification of a leader.	43
	Activity 4. What is communication?	44
	Activity 5. Different types of communication.	45
	Activity 6. Problem solving;	46
	Activity 7. Decision making.	47
	Winding up - Graded goal setting.	49
7.	Fourth week's session	
	Activity 1. Recap of previous session.	51
	Activity 2. Debriefing experience of training peer group members through the experiential learning cycle – positive reinforcement by recognition.	52
	Activity 3. The use of condoms and condom demonstration.	53

Activity 4. Practice of using a condom and demonstrating its use.	56
Activity 5. Negotiating safe sex.	57
Activity 6. Refusal skills.	58
Winding up - Graded goal setting.	59
8. Fifth week's sessions	
Activity 1. Recap of previous session.	62
Activity 2. Debriefing experience of training peer group members through the experiential learning cycle – positive reinforcement by recognition.	62
Activity 3. Problems faced by a drug user with a focus on social consequences.	63
Risk-reduction	
A. Alternate sessions for opioid users	
Activity 4A. Overdose of opioids	65
Activity 5A Risks associated with injection drug use	66
Activity 6A Risk reduction - Demonstration of using bleach to disinfect a needle/syringe - 3 x 3 x 3 method.	70
Activity 7A Self-assessment of risk and introduction to drug substitution.	71
B. Alternate sessions for alcohol/cannabis users.	
Activity 4B. Consequences of alcohol/cannabis use	74
Activity 5B. Self-assessment of risk and drugs available as deterrents to alcohol use.	75
Winding up - Graded goal setting.	76
9. Sixth week's sessions	
Activity 1. Recap of previous session.	77
Activity 2. Debriefing experience of training peer group members through the experiential learning cycle – positive reinforcement by recognition.	78
Activity 3. Obstacles to altering risk behaviour.	78
Activity 4. Managing stress situations.	79
Activity 5. Managing emotions: grief and anger.	81
Winding up - Graded goal setting.	83
10. Seventh week's sessions	
Activity 1. Recap of previous session.	85
Activity 2. Debriefing experience of training peer group members through the experiential learning cycle – positive reinforcement by recognition.	86
Activity 3. Accessing treatment for substance abuse.	87
Activity 4A. Forming self-help/support groups for risk reduction.	88
Alternate session for those who have sought treatment with a goal of abstinence:	
Activity 4B. Forming self-help/support groups for sobriety after getting treatment.	89
Activity 5. Practice of motivating others – rehearsal sessions – on accessing help and forming self-help groups.	92
Winding up - Graded goal setting.	94
