

B-roll - Interview with Antonio Maria Costa, World Drug Report 2007
(© UNODC, June 2007)

Shot list:

1. Evidence that that the global drug problem is being brought under control.
2. Africa's vulnerability to drug traffickers seeking new supply routes.
3. How the latest strains of cannabis are making people sick.
4. The need to see drugs as a health problem as much as a crime issue.
