ATS (excluding “ecstasy”) seizures reported to UNODC (2006-2010)
No ATS (excluding “ecstasy”) seizures reported to UNODC (2006-2010)

* This quantity reflects the bulk weight of amphetamine-type stimulants (excluding “ecstasy”) (amphetamine, methamphetamine, non-specified ATS, prescription stimulants and other stimulants) seizures, with no adjustment for purity. Seizures reported in tablets or similar units are converted using assumed bulk tablet weights between 90mg and 300mg, depending on the region and specific drug type and based on information currently available to UNODC. The conversion factors are listed in the methodology section.
