Often people can identify many advantages and disadvantages of their drug and alcohol use. They weigh these advantages and disadvantages - pros and cons – in an effort to decide whether or not to continue or stop certain drug and alcohol behaviors. In the column below, please list the pros (advantages) and cons (disadvantages) of your drug and alcohol use.

Review the list and rate the different factors in terms of importance to you. Rate them from 1 (the most important) to the least important.
Many people who regularly use drugs or alcohol say they continue with their use because the costs of quitting are judged to be too high or risky. It may be useful in deciding whether or not to participate in some form of treatment to review the specific benefits and costs in continuing with things as they are. In the quadrants below, list examples of what you gain and lose by continuing using drugs or alcohol and what you would gain by stopping drugs or alcohol use.
