

## Inputs from the Commissioner of Police

### **(a) Development of domestic legal frameworks for criminalization, procedural matters, prevention and International Cooperation in the context of the Convention:**

Setting up of a legal committee to review/amend existing national legislations in order to:

- Facilitate Police enquiry and transnational investigation through better cooperation and sharing of information between member countries;
- Formulate Memorandum of Understanding (MoU)/Agreement with Social Media Companies to reduce procedural requisite, facilitate exchange of user information and ethical hacking; and
- Look into the processes of setting up a regional tribunal to prosecute accused parties outside our jurisdiction.

### **(b) Training for National authorities on enforcement of substantive and procedural Law:**

**Capacity building** – Training of Mauritius Police Force (MPF) personnel in cybercrime investigations, phishing cases, detection of scams, training on cases reported via social media (Facebook, Tik-Tok, Instagram, You tube, Online shopping, amongst others).

### **(c) Training on the request and provision on mutual legal assistance in criminal matters:**

**Capacity building** - To provide legal assistance to regional Police enquiry Officers and judicial personnel on applications for Mutual Legal Assistance and a regional common platform for requests of Mutual Legal Assistance.

### **(d) Equipment software and infrastructure for collecting and analysing digital evidence, and for the investigation and prosecution of crimes in the context of the convention:**

Donation of software and training of MPF personnel for investigation into block chain technology.

### **(e) Training on specific types of Crimes:**

(i) Development of expertise in Computer Forensics, Blockchain Analytics, crypto currency (virtual assets);

(ii) Training of Financial Crime Investigators;

(iii) Financing exchange programs between partner nations to enhance capacity to interact, cooperate and share information among Financial Crimes Investigators; and

(iv) Developing of intelligence capabilities with regard to investigation of financial crimes.
