Delegation of the Dominican Republic
Mechanism of implementation

1. What mechanisms of implementation of the convention should be provided for in the convention?

Regarding the mechanisms of implementation, we consider that it is essential to establish a clear foundation to promote a constant and fluid exchange of information amongst the Parties. Additionally, we recommend establishing periodical expert meetings, in a space that promotes the creation of policies and the routinely and permanent revision of the implementation of the Convention.

We propose a Conference of State Parties, that reunites periodically, and that is able to create subsidiary bodies to address specific protocols. Additionally, we recommend to establish a formal process to review the implementation of the convention, periodically, in the Conference of State Parties.

Similarly, we are open to establish specialized groups to facilitate the exchange of information, the international cooperation and the technical cooperation amongst parties.

Regarding this last point, we consider adequate to establish mechanisms to support the efforts of developing countries, and to strengthen the technical capacities of the investigation and prosecution entities of the crimes established by the convention.

39. What is the most acceptable option, from the following, for the drafting of the chapter on the mechanism of implementation:

The delegation of the Dominican Republic considers that the most acceptable responsible related to the mechanism of implementation is a Conference of the Parties, structured similarly to UNTOC and UNCAC, and at the same time, including the structural improvements that are necessary due to the urgent nature related to the issues addressed by the convention.

40. How can the convention ensure that the implementation mechanism makes best use of the experience and expertise of relevant non-governmental organizations, civil society organizations, academic institutions and the private sector?

Finally, we agree with the previous interventions that affirm that the mechanism of implementation that were established by UNCAC and UNTOC are enough to take advantage of the contributions of civil society, private sector and other non governmental organizations.
