VI. Preamble

Qn No 47. What principles and main elements should be included in the preamble?

Ans : In the Preamble we may include International cooperation, Protection of sovereignty and integrity and common criminal policy to protect the cyberspace. The heart and soul of the Convention lies in enhanced international cooperation through collection and sharing of information / evidence; criminalization of ICT crimes; Mutual Legal Assistance; and technical assistance to the States that seek or require such assistance with active collaboration of Private and Public Sector participation.

Qn No 48. Do Member States agree to waiting until progress has been made on the substantive articles of the convention before drafting the content of the preamble?

Ans : Our answer is Yes. It should be finalized at the end to resonate the principles incorporated in the whole convention.
