Madam Chair,

On question 47, the principles and main elements that should be included in the preamble, are as follows:

(a) the principles of sovereignty, sovereign equality and territorial integrity of States;

(b) adherence to the Universal Declaration of Human Rights, the Charter of United Nations and other international human rights instruments to which UN Member States are parties;

(c) the importance of ensuring a proper balance between the interests of law enforcement and respect for fundamental human rights;

(d) the negative impact of cybercrime on peace and security, and convinced of the urgent need to strengthen cooperation to prevent and combat such crime more effectively at the national, regional and international levels;
(e) importance of technical assistance in enhancing the ability of States, including by strengthening capacity building to prevent and counter cybercrimes

On question 48, Malaysia has no objection to postpone deliberations and the drafting of the content of the preamble until after progress has been made on the substantive articles of the convention.

I thank you, Madam Chair.
