“ The nature of the game lends itself to manipulation for betting purposes. There are many contingencies. There is only one player who must act. Detection is difficult, not least because at many lower level matches there are no spectators and inadequate facilities to protect players from potential corrupters. ”

Ivo Klec va-t-il revenir sur les courts ? Le Slovaque a en effet été suspendu deux ans par la Fédération internationale de tennis (ITF) vendredi soir.

Le 324e joueur mondial aurait refusé de coopérer dans des enquêtes anti-corruption. Ce dernier, en plus de cette lourde suspension, a écopé d'une amende de 10 000 dollars.

Final Report expected

“ Shortly before the appointment of the Panel, there was media coverage critical of past events, as well as of the current condition of professional tennis. The Panel has not discovered any evidence demonstrating a ‘cover up’ in relation to these issues, by the International Governing Bodies, the TIU, or anyone else. ”

Independent Review Panel, 2018

“ The empirical evidence available to the Panel demonstrates that while no level of professional tennis is immune from betting-related and other breaches of integrity, the problem is particularly acute and pervasive at the lower levels of the sport, especially on the men’s circuits. ”

Independent Review Panel, 2018

“ The TIU’s efforts to safeguard tennis integrity deserve credit in several respects. Most notably, the TIU has conducted 35 successful prosecutions over the years, it has significantly expanded its relationships in the betting industry, and it has implemented an education programme that has been applied to more than 25,000 players. ”

Independent Review Panel, 2018

“ There should be ratification and implementation of the Macolin Convention and other international cooperative efforts to combat sports corruption. ”
