1. The present statement was made in accordance with rule 28 of the rules of procedure of the functional commissions of the Economic and Social Council.

2. Under the terms of operative paragraph 5 of the revised draft resolution E/CN.7/2014/L.8/Rev.1, the Commission on Crime Prevention and Criminal Justice would request the United Nations Office on Drugs and Crime to conduct a study on trafficking in human organs based on the analysis of information provided by Member States for consideration by the Commission at its twenty-fifth session and, in that regard, invite the Office to engage in a dialogue with relevant international intergovernmental organizations, where appropriate, in close consultation with Member States to enable it to collect data and conduct an analysis of instances of organ trafficking and prosecutions of trafficking in organs, as well as collect examples of applicable legislation, while bearing in mind that the data on trafficking in persons for the purpose of organ removal is being gathered for the Global Report on Trafficking in Persons, in accordance with Economic and Social Council resolution 2013/41, and encourage Member States to provide, upon request, relevant information to the United Nations Office on Drugs and Crime.

3. To implement the activities requested in operative paragraph 5, the United Nations Office on Drugs and Crime would need to collect data and conduct an analysis of instances of organ trafficking and prosecutions of trafficking in organs, as well as collecting examples of applicable legislation and publish the study. It was envisaged that additional extrabudgetary resources in the amount of $902,100 would be required to provide for one professional post at the P-4 level for 24 months to collect data and conduct an analysis of instances of organ trafficking and prosecutions of trafficking in organs, as well as collecting examples of applicable legislation; an expert group meeting in Vienna for 15 participants for two days to consult international experts on the methodology to collect data and conduct an analysis of instances of organ trafficking and prosecutions of trafficking in organs, as well as collecting examples of applicable legislation; six regional consultants for six months to collect data; and translation and printing costs for one research study of 100 pages in six languages and one report of 16 pages in six languages.

4. Should the additional extrabudgetary resources mentioned above not be provided, the activities would not take place.

5. Hence the adoption of revised draft resolution contained in E/CN.7/2014/L.8/Rev.1 would not entail any additional appropriation under the programme budget for the biennium 2014-2015.
