**LEARNING FROM INDEPENDENT EVALUATIONS
DURING COVID-19: UNODC'S GLOBAL
PROGRAMME FOR THE IMPLEMENTATION OF THE
DOHA DECLARATION**

18 MAY 2021 | 13:10 - 14:00 CEST

About the Event

This side event will focus on the recently finalized in-depth evaluation of UNODC's Global Programme, "The Implementation of the Doha Declaration: Towards the Promotion of a culture of lawfulness". The evaluation was conducted during COVID-19 in a participatory manner and delivered actionable results, which have already been taken on by Programme Management.

The speakers will provide an overview of evaluation at UNODC as well as of these particular evaluation findings and describe the process of the independent in-depth evaluation during the first COVID-19 lockdown. This includes the evaluation approach in the COVID-context, ensuring that the methodology was tailored to this new situation and highly participatory methods were applied.

Moreover, the side event will focus on the key evaluation results, lessons learned, best practices and the response of the Global Programme as well as the results achieved so far in implementing the recommendations, in particular considering the current COVID-context.

Speakers will include the State of Qatar, which is the Global Programme's donor; the Chief of UNODC's Independent Evaluation Section; the Coordinator of the Global Programme; and the Lead Evaluator.
