

” Drugs, COVID and the most marginalised “

Monday 12 April 2021 - 13:10-14:00 CEST (11:10-12:00 GMT ---- 07:10-08:00 EDT)

Side Event / Commission on Narcotic Drugs

Register [here](#)

The COVID-19 pandemic has had profound effects on the way we all live our lives. This event will focus on how the COVID-19 pandemic has impacted on drug use, drug treatment and drug policy across the world, with special insights from organisations working with people who use drugs. It will look at how the pandemic has exacerbated the harms caused by drug policies on the most marginalised people in our societies as well as trying to identify any positive developments.
