

Legal Regulation through a Development Lens

12 April 2021 13:10-14:00 (CET Vienna)

Registration: <https://bit.ly/3m9oAON>

With only nine years to reach the 2030 Sustainable Development Goals, there is enormous scope for achieving these goals by advancing socially just models to legally regulate drugs.

Join us to learn about the benefits and challenges of implementing a legal regulation model using a development lens.

Each presentation will provide a brief overview of diverse projects, legislative initiatives or studies that place human rights, social justice and public health at the centre of legal regulatory frameworks.

PANELISTS

Clemmie James Campaigns
