

## DECRIMINALISATION - WHAT WORKS AND WHAT DOES NOT

As several countries have decriminalised marijuana and some more are looking into it, it is important to create understanding and paint a whole picture about the existing results of marijuana decriminalisation. Is it a winning concept?

The side event will open space for discussion about the effects of decriminalisation in various countries. Based on a deep analysis done by Drug Policy Center (NPC) of data about the impact of decriminalisation from some more European countries, we will talk about which measures under which circumstances are crucial to prevent and reduce drug related harm.

During the side event, we will launch the English translation of the afore mentioned report: "Decriminalisation of narcotic drugs – what can we learn".

**CND64 SIDE- EVENT**  
**PROGRAMME**

**April 15, 2021, 10.00 -10.50 AM**
