Commission on Narcotic Drugs
Sixty-fifth session
Vienna, 14–18 March 2022
Item 6 of the provisional agenda 1*  
Follow-up to the implementation at the national, regional and international levels of all commitments, as reflected in the Ministerial Declaration of 2019, to address and counter the world drug problem

Belarus, Cuba, Kyrgyzstan, Russian Federation, Syrian Arab Republic and Venezuela (Bolivarian Republic of): draft resolution

Strengthening international cooperation in preventing and combating the misuse and abuse (China, Singapore, Turkey) of information and communications technologies for illicit drug trafficking in drugs and precursors (Turkey) and drug-related money laundering proceeds of drug-related crimes (Iran) (retain: Turkey, flexible: Egypt)

(Reservation on the resolution: EU, USA, CAN, UK, AUS, NOR, NZL, JPN)  
(Suggests postponing the resolution: CH)

The Commission on Narcotic Drugs,

PP1. Concerned about the increase in illicit (Turkey, China, Venezuela) trafficking in illicit (China)/ Concerned about the increase in trafficking in illicit (Chair’s proposal, China, Cuba) drugs and precursor chemicals used in the manufacture of illicit drugs and laundering proceeds of drug-related crimes (Iran) drug-related money laundering through the misuse and abuse (Singapore) of information and communications technologies, including inter alia (Cuba, Egypt, Iran, Singapore, Venezuela) the Internet, the darknet, the deepweb (Turkey), social media platforms, (Pakistan) anonymous and encrypted connections, messaging applications and electronic payment systems and cryptocurrency transactions

1__________________  E/CN.7/2022/1.
Recognizing that the coronavirus disease (COVID-19) pandemic triggered greater misuse and abuse (Singapore) by criminal organizations of information and communications technologies for illicit (Egypt, Singapore) trafficking in drugs and precursors, as well as of electronic and virtual (reservation by Iran) payment systems for drug-related money-laundering all proceeds of drug related crimes (Iran).

[PP2 agreed in informals]

Recognizing—Acknowledging (Mexico) also that changes in trafficking methods, including increases in the contactless sale of drugs by means of the darknet and the Internet, require the adaptation of the relevant legislations and (Turkey) law enforcement authorities’ and financial intelligence units’ working techniques,

[PP3 agreed in informals]

Taking into account the challenges and impediments that some Member States face in countering the misuse and abuse of information and communication technologies for drug trafficking particularly in having access to and acquiring of the needed software, hardware tools and equipment for the process of identifying, seizing, handling and transporting digital evidence in laundering proceeds of drug-related crimes in terms of fulfilling their commitments under the three drug control conventions. (Iran, Venezuela)

[PP3 bis agreed in informals]

Reaffirming the importance of increasing and strengthening provision (and to increase the provision of technical assistance and capacity building at all levels to Member States, upon request, to prevent and counter the use of technologies, including the Internet, by drug trafficking networks and transnational criminal organizations, to facilitate drug-related activities; (Cuba, Venezuela, South Africa, Turkey, Egypt, Burkina Faso) of specialized technical assistance including adequate financial assistance, training, capacity building, equipment and technology at all levels to Member States, in particular transit countries, upon request, to prevent and counter the use of technologies by drug trafficking networks and transnational criminal organizations; and further reaffirming the need for adopting effective and concrete measures including through mobilization of resources for assisting Member States in the fight against misuse and abuse of information and communication technologies for drug trafficking;

(Iran)

[PP3 ter agreed in informals]

Reaffirming the importance to increase and strengthen the provision of technical assistance, including adequate financial assistance, and capacity building, equipment and technology at all levels to Member States, upon request, to prevent and counter the misuse and abuse of information and communication technologies by drug trafficking networks and transnational criminal organizations, to facilitate drug-related activities. (Chair’s proposal, Cuba, South Africa, Iran)

[PP3 ter alt agreed in informals]

Recognizing further that increased social distancing and general isolation during the COVID-19 pandemic have made the use of private-sector platforms – a feature of the drug trafficking environment for the past several years – a convenient

2. Electronic payment systems are always linked to a fiat currency, while virtual payments systems are not only linked to a fiat currency but can also be converted to other virtual currencies, for example, bitcoin.
way to arrange the purchase and delivery of drugs and precursors have increased the need for law enforcement, regulatory and other relevant authorities to engage, as appropriate, with the private sector to assist in efforts to detect and interdict trafficking, and noting the relevant expert group meetings convened by, inter alia, the International Narcotics Control Board on these topics.

[PP4 agreed in informals]

[PP5 Recalling the recommendation contained in the outcome document of the thirtieth special session of the General Assembly, entitled “Our joint commitment to effectively addressing and countering the world drug problem”, on strengthening international cooperation in order to prevent and counter drug-related criminal activities using the Internet, consistent with relevant and applicable law.

PP6. Recalling also the Ministerial Declaration on Strengthening Our Actions at the National, Regional and International Levels to Accelerate the Implementation of Our Joint Commitments to Address and Counter the World Drug Problem, in which Member States noted that the criminal misuse of information and communications technologies for illicit drug-related activities was increasing.

PP5. Recalling all commitments related to addressing the challenges posed by the misuse and abuse of information and communication technologies for drug trafficking and drug-related money laundering, as contained in the Political Declaration and Plan of Action on International Cooperation towards an Integrated and Balanced Strategy to Counter the World Drug Problem, the Joint Ministerial Statement of the 2014 high-level review by the Commission on Narcotic Drugs of the implementation by Member States of the Political Declaration and Plan of Action on International Cooperation towards an Integrated and Balanced Strategy to Counter the World Drug Problem, and outcome document of the thirtieth special session of the General Assembly, entitled “Our joint commitment to effectively addressing and countering the world drug problem”, as well as the Ministerial Declaration on Strengthening our Actions at the National, Regional and International Levels to Accelerate the Implementation of Our Joint Commitments to Address and Counter the World Drug Problem, adopted during the ministerial segment of the sixty-second session of the Commission on Narcotic Drugs, held in Vienna on 14 and 15 March 2019 (Singapore, Egypt)

[PP5 agreed in informals]

PP6. Recalling further the World Drug Report 2021, in which it was stated that about 74 per cent of transactions on the darknet, or about 90 per cent of darknet sales, were drug-related.

[PP6 agreed in informals]

PP7. Recalling the United Nations Office on Drugs and Crime report entitled “Estimating illicit financial flows resulting from drug trafficking and other transnational organized crimes”, in which it was acknowledged that, globally, less than 1 per cent of criminal proceeds were seized and frozen.

[PP7 agreed in informals]

PP8. Recalling also its resolution 64/1 of 12 April 2021, containing the statement of the Commission on Narcotic Drugs on the impact of the COVID-19 pandemic on the implementation of Member States’ joint commitments to address and counter all aspects of the world drug problem, in which the Commission noted that
