Addressing the use of synthetic drugs and their health and social consequences

Ms. Giovanna Campello, Chief
Resilience of children and youth

Supporting Parents Prevents Drug Use and Other Risky Behaviours

Prevalence of non-medical use of prescription opioids 6 years after programme delivery in 6th grade

Resilience of systems of services for people who use drugs and with drug use disorders

Know your populations – Need for interventions tailored to different target groups.
Resilience of health systems in ensuring safe access to controlled medicines, while preventing diversion and non-medical use
From fire fighting to a long-term game in promoting health and wellbeing
Thank you!
