CND Res.1(I). Transfer of functions of the League of Nations

The Commission on Narcotic Drugs

Noting the measures adopted by the General Assembly, the Economic and Social Council and the Secretary-General with a view to ensuring the transfer to the United Nations of the powers and functions formerly exercised by the League of Nations under the agreements, conventions and protocols on narcotic drugs;

Desires to record its thanks to the General Assembly and the Economic and Social Council for having taken these measures, and to the Secretary-General for having rapidly and effectively taken all steps required to ensure the continuity of the international control of narcotics;

Welcomes the large number of Members of the United Nations who have signed the protocol of 11 December 1946;

Expresses the hope that the Members of the United Nations who have signed the protocol, subject to approval, or approval followed by acceptance, will approve, or approve and accept it as soon as possible, and that the Members of the United Nations who have not already taken steps to become parties to the said protocol will do so at an early date;

Draws the attention of the Economic and Social Council to the fact that a certain number of parties to the international agreements, conventions and protocols on narcotic drugs are not Members of the United Nations, and requests it to consider the measures necessary to ensure at an early date their participation in the protocol of 11 December 1946.
