CND Res.BVII(X). Bulletin on narcotics

The Commission on Narcotic Drugs,

Considering that in its resolution 557 A(XVIII), the Economic and Social Council invited the Secretary-General to submit to the commissions, for their consideration, his plans regarding publications and studies; and that the Bulletin on Narcotics has proved highly useful, and is in great demand among the experts, administrators, and others professionally concerned, having regard to the diverse aspects of narcotics problems of a scientific, legal and social character with which it deals, and of its special role as the only international publication of its type in the narcotics field,

Convinced that the proposed reduction to two or three issues per year would seriously impair its value and its coverage,

Believing that the additional cost of the maintenance of the circulation of the Bulletin at four issues a year is not likely to be prohibitive,

Requests the Economic and Social Council to invite the Secretary-General to take the necessary measures to maintain the publication of the Bulletin at four issues per year.
