27 February 1976

CND Res.1(S-IV). Bulletin on Narcotics^{*/}

The Commission on Narcotic Drugs,

Recognizing that the quality of the articles in the Bulletin on Narcotics meets the practical needs of those who, by the nature of their work, are required to face drug problems,

Noting that it is very difficult for experts in Spanish-speaking countries to keep abreast of developments, because of the lack of scientific publications in Spanish dealing with research on and activities relating to drug problems, and that requests for the Spanish edition have increased in the last few years,

1. Decides that the Spanish edition of the Bulletin on Narcotics should be published in the same form as the English and French editions;
2. Requests the Secretary-General to arrange for the Spanish edition of the Bulletin on Narcotics to be published in printed form, the cost being charged to the regular budget of the United Nations.

806th meeting.
27 February 1976.
