Economic and Social Council

Distr.  
GENERAL

890th Meeting  
19 February 1980

---

**CND Res.1 (S-VI). Implementation of the international treaties on the control of narcotic drugs and psychotropic substances**

The Commission on Narcotic Drugs,

Noting the constantly spreading abuse of psychotropic substances in a number of countries,

Aware of the large quantities of these substances available on the illicit market, often originating from licit sources,

Deeply concerned about new and extremely dangerous forms of multiple drug abuse based on the combined use of psychotropic substances and heroin,

Noting with serious concern that a number of States manufacturing and exporting psychotropic substances have still not adhered to the 1971 Convention on Psychotropic Substances,

Recalling the reiterated calls by the Economic and Social Council and by the General Assembly for adherence to that Convention,

1. Strongly urges again all States which have not yet done so to adhere to the 1971 Convention on Psychotropic Substances;
2. Recommends the States Parties to the 1971 Convention on Psychotropic Substances to make full use of the measures of protection against the import of unwanted substances provided for in article 13 of the Convention;
3. Invites the Governments concerned to import psychotropic substances primarily from the States Parties to the 1971 Convention on Psychotropic Substances or from those States not parties thereto which apply the provisions relating to international trade provided for in article 13 of the Convention;
4. Requests the Secretary-General to transmit the present resolution to all Governments, inviting them to bring it to the attention of their competent authorities.
