Emphasizing that the need to balance the global licit supply of opiates against the legitimate demand for opiates for medical and scientific purposes is central to the international strategy and policy of drug abuse control,

Noting the fundamental need for international cooperation and solidarity with the traditional supplier countries in drug-abuse control in general and in the universal application of the provisions of the Single Convention on Narcotic Drugs of 1961 [129](#) in particular,

Having considered the Report of the International Narcotics Control Board for 1995, [130](#) in which it is stated that in 1994 global consumption of opiates exceeded the production of opiate raw materials, and that in 1995 increased licit production in the two traditional producing countries, India and Turkey, maintained, together with the other producing countries, the balance between supply and demand,

Noting the importance of opiates in pain relief therapy as advocated by the World Health Organization,

1. Urges all Governments to continue contributing to the maintenance of a balance between the licit supply of and demand for opiates for medical and scientific needs, the achievement of which would be facilitated by maintaining, in so far as their constitutional and legal systems permit, support to the traditional supplier countries, and to cooperate in preventing the proliferation of sources of production and manufacture for export;
2. Urges Governments of all producing countries to adhere strictly to the provisions of the Single Convention on Narcotic Drugs of 1961, and to take effective measures to prevent illicit production or diversion of opiate raw materials to illicit channels;
3. Urges consumer countries to assess and communicate to the International Narcotics Control Board their real needs for opiates to ensure easy supply;
4. Commends the Board for its efforts in monitoring the implementation of the relevant resolutions of the Economic and Social Council and, in particular:
 - (a) In urging the Governments concerned to adjust global production of opiate raw materials to a level corresponding to the actual licit needs and to avoid any proliferation of production;
 - (b) In convening meetings during sessions of the Commission on Narcotic Drugs to enable the main States importing and producing opiate raw materials to discuss maintaining a balance between licit demand for and supply of opiates;
5. Requests the Secretary-General to transmit the present resolution to all Governments for

consideration and implementation.
