ARTICLE 6 UNCAC

PREVENTIVE ANTI-CORRUPTION BODY OR BODIES

DENMARK (FIFTH MEETING)

Information requested from State parties in relation to mandates of anti corruption body or bodies in respect of prevention (art. 6)

In Denmark the fight against corruption is mainly handled by the Special Prosecutor for Serious Economic and International Crime (SØIK). The Special Prosecutor comprises a separate investigation unit as well as specialized legal staff. Regular meetings are held in a national network consisting of representatives from SØIK and all police districts in order to exchange information concerning the fight against economic crime, including bribery. Moreover, SØIK works closely with other authorities and organizations, such as the Danish FSA and the Confederation of Danish Industry.
