Concerning the requirements of article 8 Codes of conduct for public officials: With a view to enhance honesty, responsibility and integrity among public officials, the Committee has prepared the code of professional conduct for civil servants, drawing on successful international practices in this regard. The code was prepared with the participation of a number of experts in human development and combating corruption and higher officials in the State’s administrative apparatus in order to avoid the shortfalls of chapter ten of law number 47/1978 on the system of civil servants in the State; a review was made of the public employee’s duties in a manner that conforms with international developments and responds to the modernization process of the general administration. The document was approved through a joint committee comprising the Ministry of State for Administrative Development and the Central Agency for Organization and Administration in 2010. However, the code was not published as it will be issued as an annex to the new law on the public function.
