

UNITED NATIONS *Office on Drugs and Crime*

Responses by selected indicators to:

Questionnaire for the Ninth United Nations Survey of Crime Trends and Operations of Criminal Justice Systems, covering the period 2003 - 2004

Notes:

Rates presented are per 100,000 population

Rates are based on population estimates provided by the Department of Economic and Social Affairs, Population Division, World Population Prospects: The 2004 Revision.

The statistics presented in this report do not take into account the differences that exist between the legal definitions of offences in various countries, or the different methods of tallying, for example. Consequently, the values of the indicators must be interpreted with great caution. In particular, the use of the figures as a basis for comparison between different countries is highly problematic

Information current as of November 2007
