Main countries identified as source and transit of cocaine shipments, as described by reported seizures, 2015–2019

Main countries mentioned as source of the shipment

Main countries mentioned as transit* of the shipment

Not main countries of source or transit

Sources: UNODC elaboration.

** A darker shade indicates a larger amount of cocaine being seized with the country as source/transit of the shipment, according to the information on trafficking routes provided by Member States in the annual report questionnaire, individual drug seizures and other official documents, over the 2015–2019 period. The source may not reflect the country in which the substance was produced. The main countries mentioned as source or transit were identified on the basis of both the number of times they were identified by other Member States as departure/transit of seizures, and the annual average amount that these seizures represent during the 2015–2019 period. For more details on the criteria used, please see the Methodology section of this document.*

The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the United Nations. A dispute exists between the Governments of Argentina and the United Kingdom of Great Britain and Northern Ireland concerning sovereignty over the Falkland Islands (Malvinas).
