Quality Standards for the Treatment and Care of Drug Use Disorders

1. Outreach/Drop-in
   - Unconditional provision of basic support, counseling, overdose/infectious disease prevention, education and referral for those people not currently receiving treatment.

2. Outpatient
   - Services for people who do not reside in the treatment facility. Interventions vary considerably in components and intensity and can cover psychological, pharmacological treatments and social support.

3. Inpatient/Short-term residential
   - Services for people with greater severity of symptoms, especially for those likely to experience significant signs of withdrawal or for patients in crisis with co-occurring mental health disorders.

4. Long-term residential
   - Services for severely affected patients who require a structured environment over a longer period of time, as they are unlikely to control their compulsive, conditional behavior conducive by drugs.
