

# LABYRINTH

## Generalization

You told a person of color that they spoke very well due to their race. Your actions were based on a generalization or belief that people of color are not as smart as other people.

Stereotypes label people in mostly negative ways. Try to get to know people as individuals and not judge them by traits such as skin color or the language they speak or where they are from.

You have hit a brick wall. Go directly to the brick wall and miss your next turn.
