

**Reduce prison overcrowding**  
**Reduce HIV transmission**

Overcrowding leads to  
increased HIV risk  
behaviour and violence

Photo: UNODC/KhairZamali

# **Exclusion is not an option**

**Every year more than  
30 million people world-  
wide enter and leave  
prison systems**

**No community remains  
unaffected**

**HIV prevention  
for prisoners is  
HIV prevention for all**

Photo: UNODC/KhairZamali

# Good prison health is **good public health**

Every year more than  
30 million people world-  
wide enter and leave  
prison systems and rejoin  
their communities

**HIV/AIDS in prisons  
affects us all**

Photo: UNODC/KhairZamali

# Good prison health is **good prison management**

Protecting and promoting  
prisoners' health benefits  
everyone

Doing so improves  
workplace health and  
safety of prison staff

Photo: UNODC/KhairZamali

# Respect for prisoners' rights is respect for **human rights**

Loss of liberty is  
the punishment—  
loss of access to  
HIV/AIDS services is not

Photo: UNODC/KhairZamali

# Equitable **health standards** for all

Prisoners are entitled  
without discrimination  
to a standard of health  
care equivalent to that  
available in the general  
community

Photo: UNODC/KhairZamali

Worldwide more than  
13 million men, women and  
young people inject drugs

**Exclusion is not an option**

**HIV prevention  
for injecting  
drug users is  
HIV prevention  
for all**

# HIV respects **no borders**

Trafficking in persons—  
only prevention and  
care for all can stop  
the spread of HIV
