INCB

OPERATIONAL RESPONSES TO NEW PSYCHOACTIVE SUBSTANCES (NPS), PRECURSORS AND PRE-PRECURSORS

Operational Recommendations on cross-cutting issues in addressing and countering the world drug problem

27 October 2016, Vienna

Fumio ITO

Project Manager, International Operations on NPS, International Narcotics Control Board (INCB)

NEWLY EMERGING SUBSTANCES*: CONSIDERATIONS

Potentially unlimited number of substances
 Lack of documented (industrial or medical) use
 Internationalized manufacture and distribution

* NPS, pre-precursors, 'designer' precursors

Special Notifications: soliciting operational cooperation

INTERNATIONAL NARCOTICS CONTROL BOARD

ION

PROJECT ION

SPECIAL NOTICE

New 'Non-Medical. Narcotic Drugs and Psychotropic Substance Regulation' in China

With reference to Commission on Narcotic Drug (CND) resolution 57/9 and Project ION, the INCB international initiative supporting national authorities (efforts to prevent non-scheduled new psychoactive substances (NPS) from reaching consumer markels, the Board wishes to draw the attention of focul points to the following matter.

The Government of China informed INOB and focal points of Project ION that a new legislation the Non-Medical Narcoic Drugs and Psychotopic Substance List Regulation, entered info force on 1 October 2015, which lists 116 "non-medical narcolic drugs and psychotopic substances". Article 2 of the regulation defines the substances on the list as addictive or potentially addictive and easily abused substances which are not produced and used as medicinal drugs.

No entity or individual shall be permitted to produce, deal in, transport, use, store, import or errort any of the non-medical substances under contol. Any use of the substances for research purposes, any use of the reference substance of the substances into the substances in esting of a medical adplance, and the management of intermediates of the substances in pharmaceutical production, must comply with relevant regulations. The list of substances and analable in the Annex.

In line with actions outlined in INCB acticular letter EINICBUPRE/CL 33/2013 (30 December 2013) and with a view to supporting authorities in investigating NPS cases under their respective national legislation, Project 10N local points are kindly requested to distribut this notice to their national counterparts in law enforcement, ustoms, postal authority and drug and other concerned regulatory agencies, as appropriate.

NEW 'NON-MEDICAL NARCOTIC DRUGS AND PSYCHOTROPIC SUBSTANCE REGULATION' IN CHINA

Scope
"Addictive or potentially addictive and easily abused substances which are not produced and used as medicinal drugs"
Prohibits

production, trade, import/export, storage, use •Scientific and research purposes exempted • Extends to

intermediates of the substances

With reference to Commission on Narocle Drug (CND) resolution 578 and Project ION, the INC6 international initiative supporting national authorities' efforts to prevent non-scheduled new psychoactive substances (NPS) from reaching consumer markets, focal points are advised of the following matter.

The results from the latest United States national survey in the Monitoring the Future series on use of finit and illicit drugs by American teenagers show a statistically significant decline in the use of synthetic canabinitis. According to the study's principal investigator +efforts at the federal and state levels to close down the sale of these substances appear to be having an effect."

Authorities in the Netherlands also reported successful experiences with a similar approac towards internet providers of gamma-butyrolactone, a precursor of GHB.
