SDG Data availability in Africa

Regional Training Programme
• Sustainable Development Goals (SDGs) and targets decided by the UN General Assembly (2030 Agenda, September 2015)

• The UN Statistical Commission developed and approved the global SDG indicator framework (2016 and 2017)

• The IAEG-SDG (28 countries + Int. Org.) is the body of the Statistical Commission responsible for coordination on SDG indicators

• UNODC is custodian - alone or with others - of 16 SDG indicators (out of 232) under Goals 3, 5, 11, 15, and 16
This implies:

- produce data for SDG indicators for global monitoring, based on national data
- develop methodological standards for the production of SDG indicators
- provide technical assistance to countries
- produce storylines for annual SG Report on SDGs

Percentage of African Member States reporting selected SDG 16 Indicators

Good data coverage related to dedicated international programs

Poor data availability due to:
- Data not produced
- Data not shared nationally
- Data not reported at international level
