

THE BRAZILIAN GOVERNMENT INVITES YOU TO THE:

**9TH SESSION OF THE CONFERENCE OF THE STATES
PARTIES TO THE UNITED NATIONS CONVENTION
AGAINST CORRUPTION'S SIDE EVENT**

**TACKLING CORRUPTION
IN PRISON SYSTEMS**

Prison systems need to strengthen anti-corruption policies. The challenges faced by prison systems around the world sometimes make it difficult to take successful measures to tackle corruption within that environment. Therefore, the strengthening of an organizational culture, operating procedural standards, independent correctional action, and intelligence activities gain special prominence in the role of curbing illicit actions within the prison system. Brazil, Paraguay, UNODC and EL PAcCTO (Europe Latin America Programme of Assistance against Transnational Organized Crime) will share their experience in the field.
