English

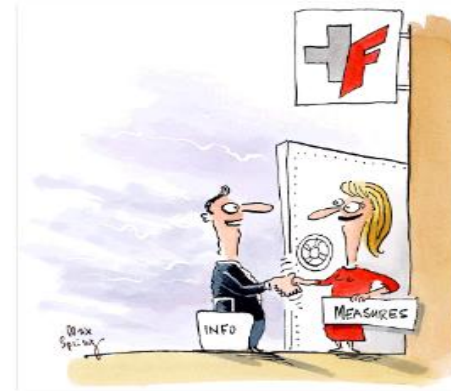

Help us fight damaging conduct in the federal administration, in organisations close to the Confederation or among recipients of subsidies!

You can report such malpractice to the **Swiss Federal Audit Office (SFAO)**. If you are a federal employee, you must not be disadvantaged in your professional status. You are also protected from dismissal.

Reasonable suspicion of a criminal act or other irregularities is sufficient. You do not have to submit evidence.

The SFAO treats all reports with confidentiality. You can also contact us anonymously.

This external platform allows you to communicate with us securely; your reports cannot be traced back to you.

Thank you for your cooperation!

Welcome to the whistleblowing platform of the Federal Department of Foreign Affairs. Integrity is one of our priorities!

As an FDFA employee or third party, you can report any suspicions of unlawful acts, irregularities or abuses relating to the department's activities. These can include:

- Embezzlement of public funds
- Visa fraud
- Accepting or awarding undue advantages
- Cases of sexual harassment, bullying or discrimination

Your report will be examined confidentially by the Compliance Office, a neutral body independent of the operational directorates of the FDFA. You can also choose to remain completely anonymous. All data are located on the protected whistleblower system, hosted on EQS' secure external servers.

Thank you in advance for your support.
