** A darker shade indicates a larger amount of methamphetamine being seized with the country as departure or transit of the shipment, according to the information on trafficking routes provided by Member States in the annual report questionnaire, individual drug seizures and other official documents, over the 2018–2021 period. The departure or transit may not reflect the country in which the substance was produced. The main countries mentioned as departure or transit were identified on the basis of both the number of times they were identified by other Member States as departure/transit of seizures, and the annual average amount that these seizures represent during the 2018–2021 period.
