The Regional Section for Africa and the Middle East and the Research and Trend Analysis Branch cordially invite you to the side event

Africa: strategic findings to understand and address a multi-faceted drug problem

The event will cast a light on recent and current developments in the drug market in Africa, focusing on recent UNODC research work and latest findings from countries in the region, to paint a picture of potential future developments.

Opening remarks and Chair: Alexia Taveau, Programme Coordinator, Regional Section for Africa and the Middle East, UNODC

Angela Me, Chief, Research and Trend Analysis Branch, UNODC

Abel Basutu, African Union Commission

Charles Parry and Bronwyn Myers, South African Medical Research Council

The presentations will be followed by a short question and answer session.
