UNODC PTRS
Families living in challenged settings

Globally, many families live in challenged settings, poising significant difficulties on their everyday lives. Challenges can be living in rural or underserved areas with inadequate access to safe drinking water, sanitation, electricity or schools, high unemployment, etc. Other challenges include a history of invasion and war that leaves families internally displaced, living in refugee camps or in conflict-intensive situations. Parental skills in these circumstances are even more crucial and specific family skills are needed to be prioritized. Parenting skills in these circumstances are even more crucial and specific family skills are needed to be prioritized.
