Main countries identified as departure or transit of methamphetamine shipments, as described by reported seizures, 2018–2020

Sources: UNODC.

* A darker shade indicates a larger amount of methamphetamine being seized with the country as departure or transit of the shipment, according to the information on trafficking routes provided by Member States in the annual report questionnaires, individual drug seizures and other official documents, over the 2018–2020 period. The departure or transit may not reflect the country in which the substance was produced. The main countries mentioned as departure or transit were identified on the basis of both the number of times they were identified by other Member States as departure/transit of seizures, and the annual average amount that these seizures represent during the 2018–2020 period. For more details on the criteria used, please see the Methodology section of this document.

The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the United Nations. The dotted line represents approximately the Line of Control in Jammu and Kashmir agreed upon by India and Pakistan. The final status of Jammu and Kashmir has not yet been agreed upon by the parties.
