Seminar on Strengthening Judicial Integrity and Capacity in Indonesia

UNODC is carrying out a baseline survey on judicial integrity and capacity in 4 provinces in Indonesia. This survey is part of a 2-year project, ‘Strengthening Judicial Integrity and Capacity in Indonesia, Phase II’, funded by the German Government. In April, UNODC held a seminar with representatives from the Supreme Court, Attorney General’s Office, Indonesian National Police, University of Indonesia and The Indonesian Legal Aid Institute Foundation to finalise the questionnaire. This survey will involve judges, court staff, prosecutors, police, lawyers, court users, detainees and businessmen in Southeast Sulawesi, South Sumatra, East Java and Riau. The survey results will provide a comprehensive picture of access to justice issues at the local level, including the timeliness and quality of justice services, public trust in the judiciary, the existence of integrity safeguards and the extent to which corruption is occurring within the justice sector.

UNODC and Ministry of Foreign Affairs facilitate an International Seminar on the Use of UNCAC Assessment Tools

UNODC and Ministry of Foreign Affairs conducted an International Seminar on ‘The Use of United Nations Convention Against Corruption (UNCAC) Assessment Tools in Identifying and Coordinating Technical Assistance’. The seminar was held to give the Government of Indonesia and UNODC an understanding of how ministries, civil society and donors are utilising UNCAC and its tools to develop anti-corruption programs and strategies and to allocate technical assistance. The seminar was held as part of UNODC’s 3-country study on UNCAC and technical assistance. Over 50 representatives from government, donor agencies and civil society attended the event.

UNODC Welcomes its New HIV Prevention and Care Expert

Mr. Reginald Gray Sattler joins UNODC Indonesia as the new HIV Prevention and Care Expert. Mr. Sattler replaces Dr. Monica Ciupagea who has taken up a new role at UNODC Headquarters. Mr. Sattler has extensive experience in the HIV and AIDS area. Since 1986 he has worked with international and regional organizations in Australia, Viet Nam, Cambodia and Thailand. He has also worked for WHO in harm reduction issues in the Western Pacific region. Mr. Sattler joins us from the East Asia and Pacific Regional Center where he has worked as UNODC’s Regional HIV/AIDS advisor since 2006.

Reducing threats to REDD implementation from Illegal Logging and Corruption

UNODC and Center for International Forestry Research (CIFOR) are partnering to undertake a study on the preparedness of Government of Indonesia and its law enforcement agencies in implementing a future carbon trading and payment mechanism commonly referred to Reduced Emissions from Deforestation and Forest Degradation (REDD). The Study is Funded by Royal Norwegian Government.

The results of the study will provide Indonesia and the donor community with options for policies and measures relating to future REDD mechanism, including measures to reduce opportunities for fraud and corruption.

UNODC to Work Closely with the National Development Planning Agency

BAPPENAS (Indonesian National Development Planning Agency) is the agency responsible for the development and implementation oversight of the newly developed National Strategy for the Eradication of Corruption (STRANAS-PK). BAPPENAS will work with other government ministries and civil societies to implement the strategy.

UNODC and BAPPENAS in a recent meeting have agreed that UNODC will support the socialisation and monitoring and evaluation of the new STRANAS. This activity is in line with UNODCs EC funded project on Support to Indonesia’s fight against corruption.
